01 bmi before after

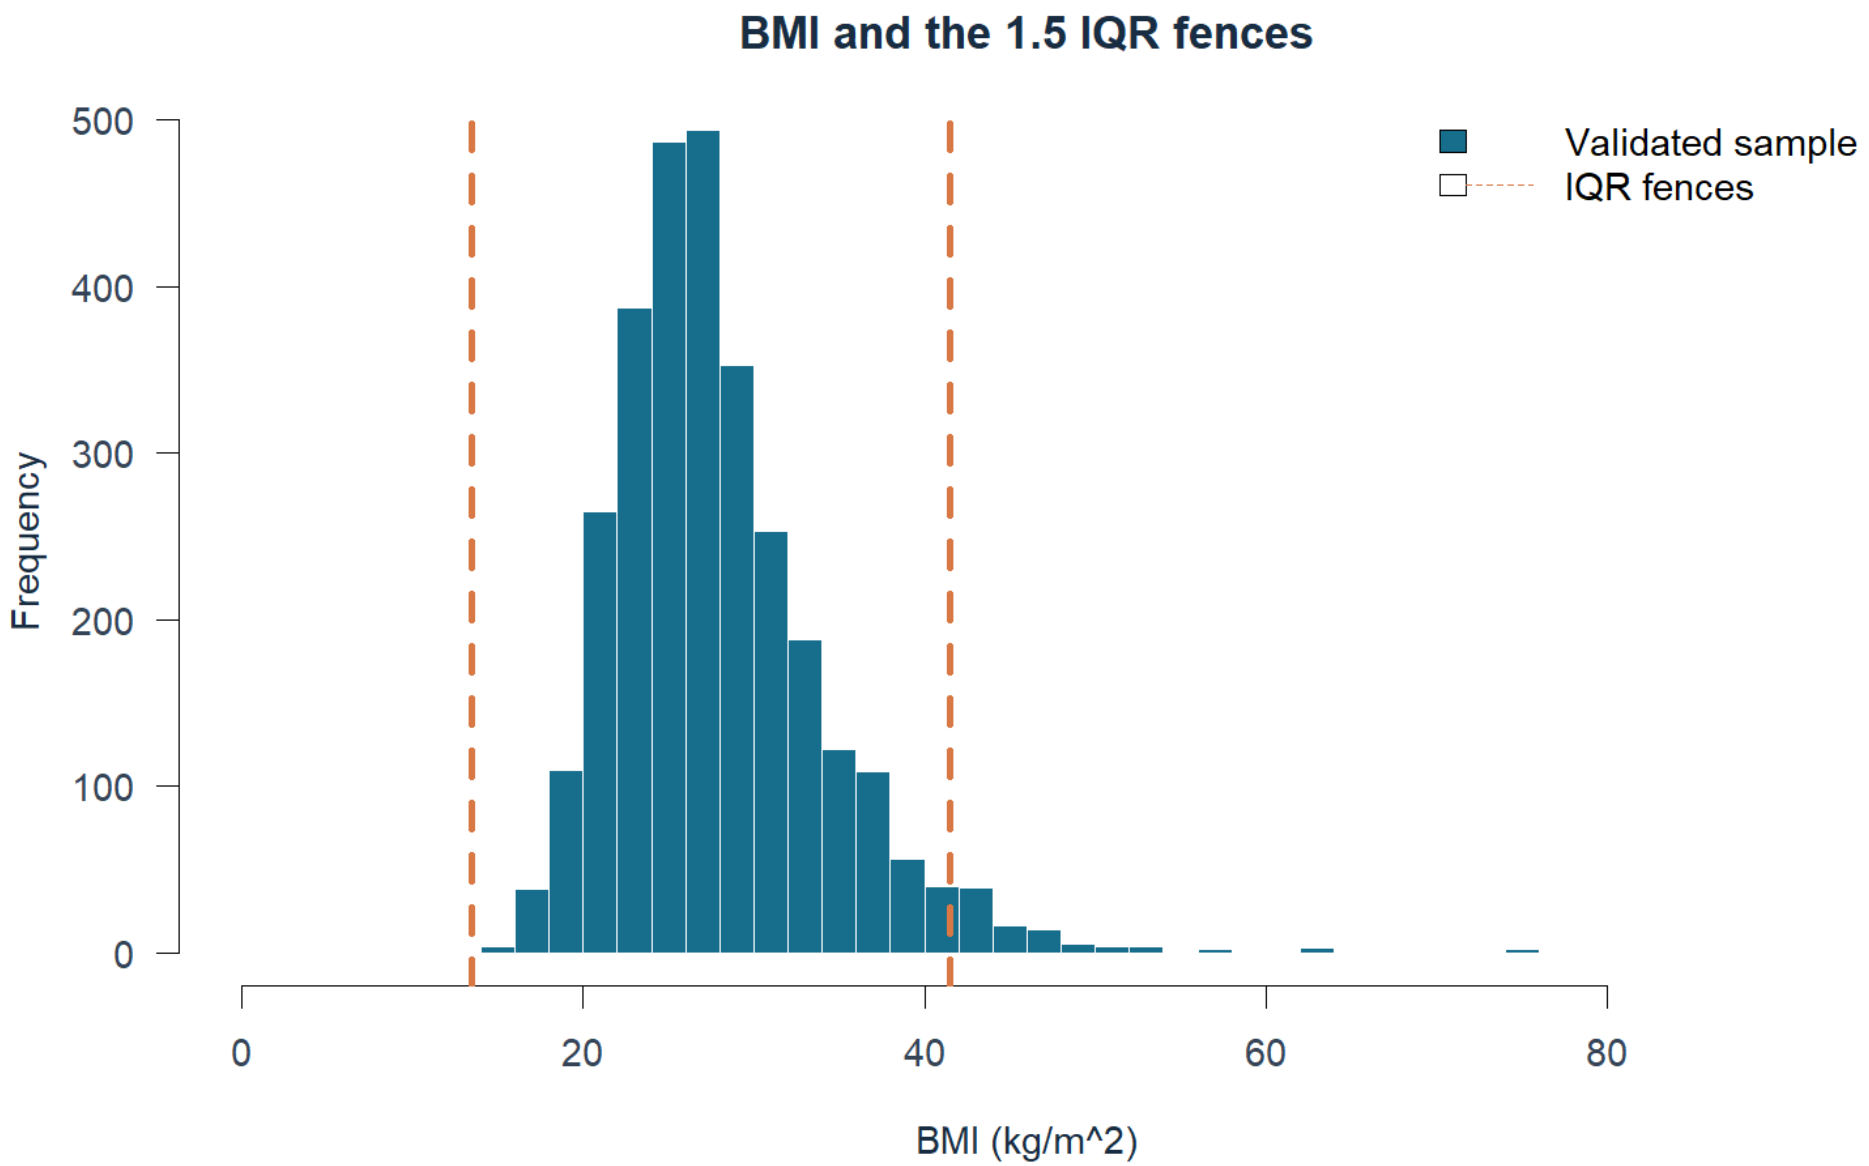

Lab01B_Outlier_Analysis/output/bmi_before_after.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

02 bmi outlier fences

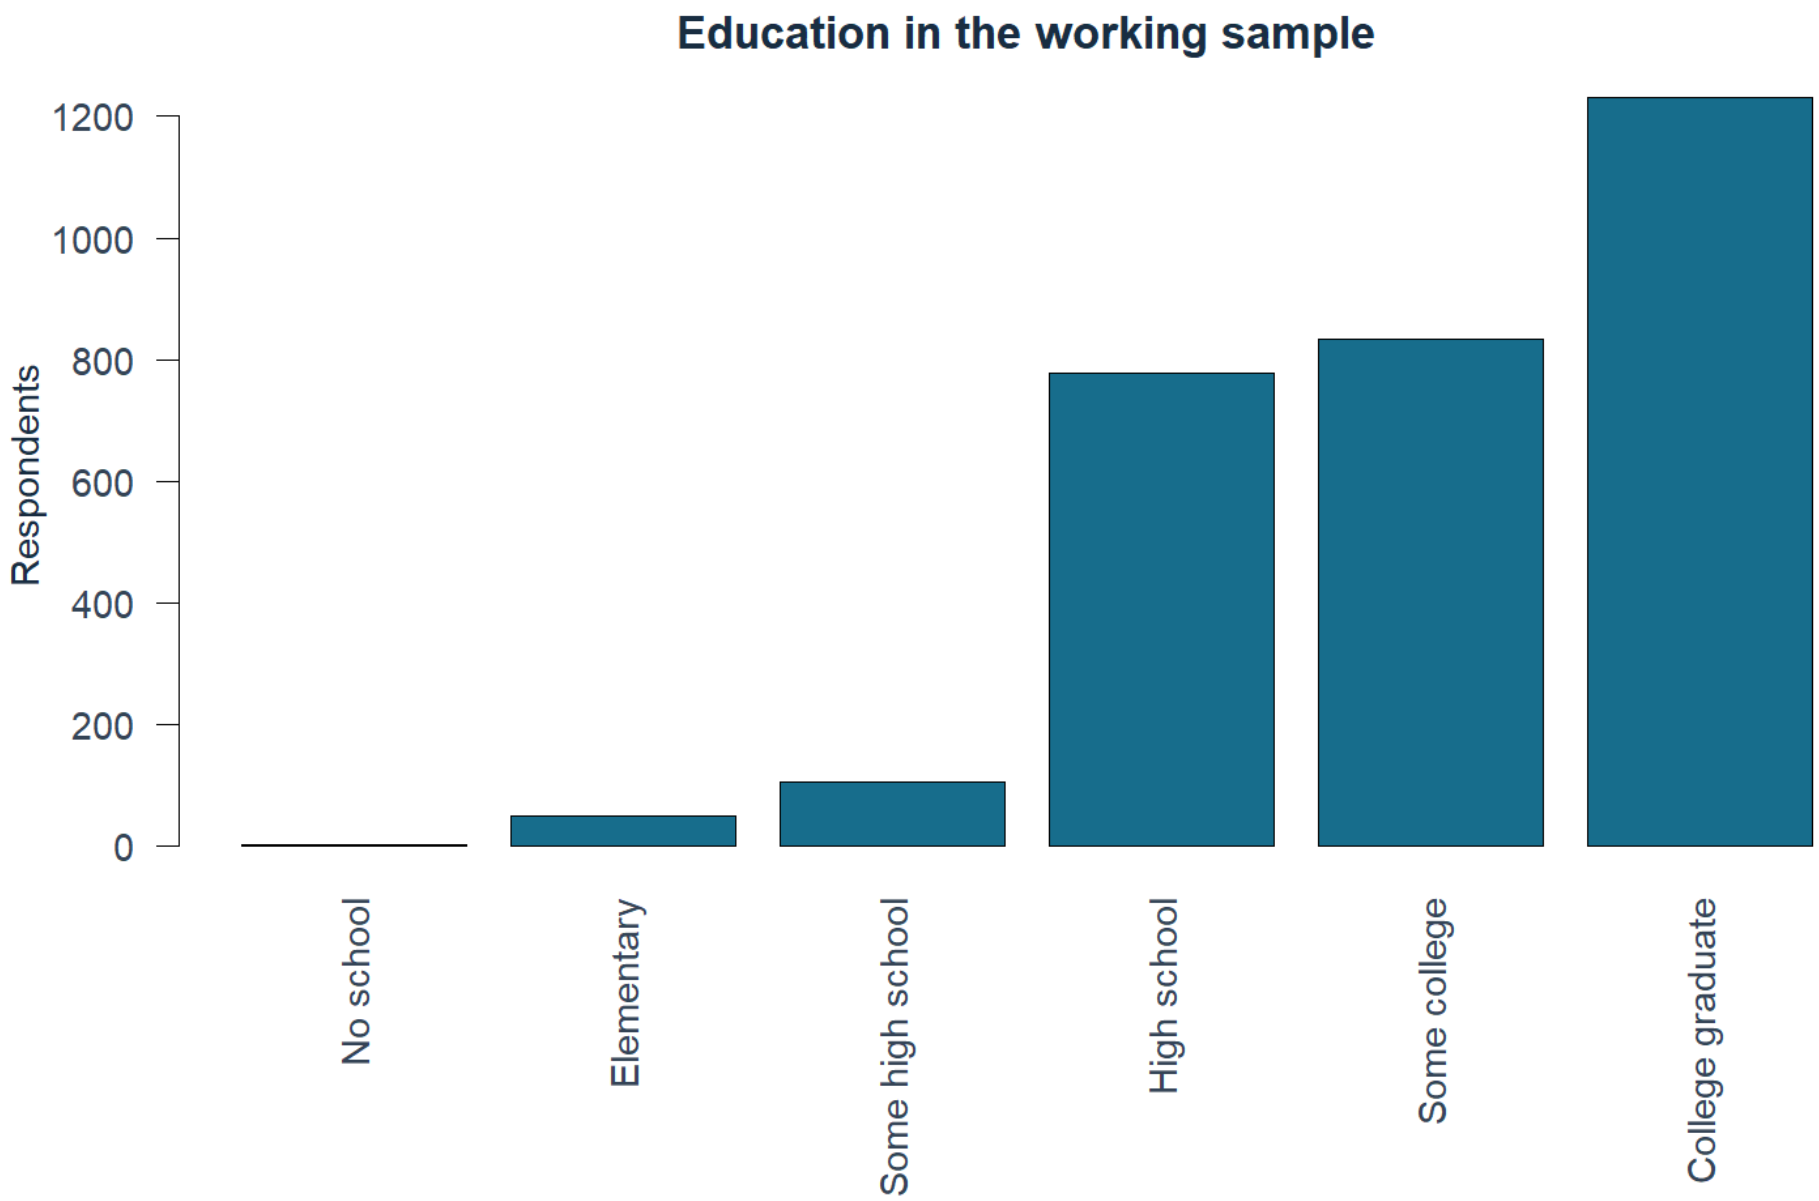

Lab01B_Outlier_Analysis/output/bmi_outlier_fences.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

03 bar education

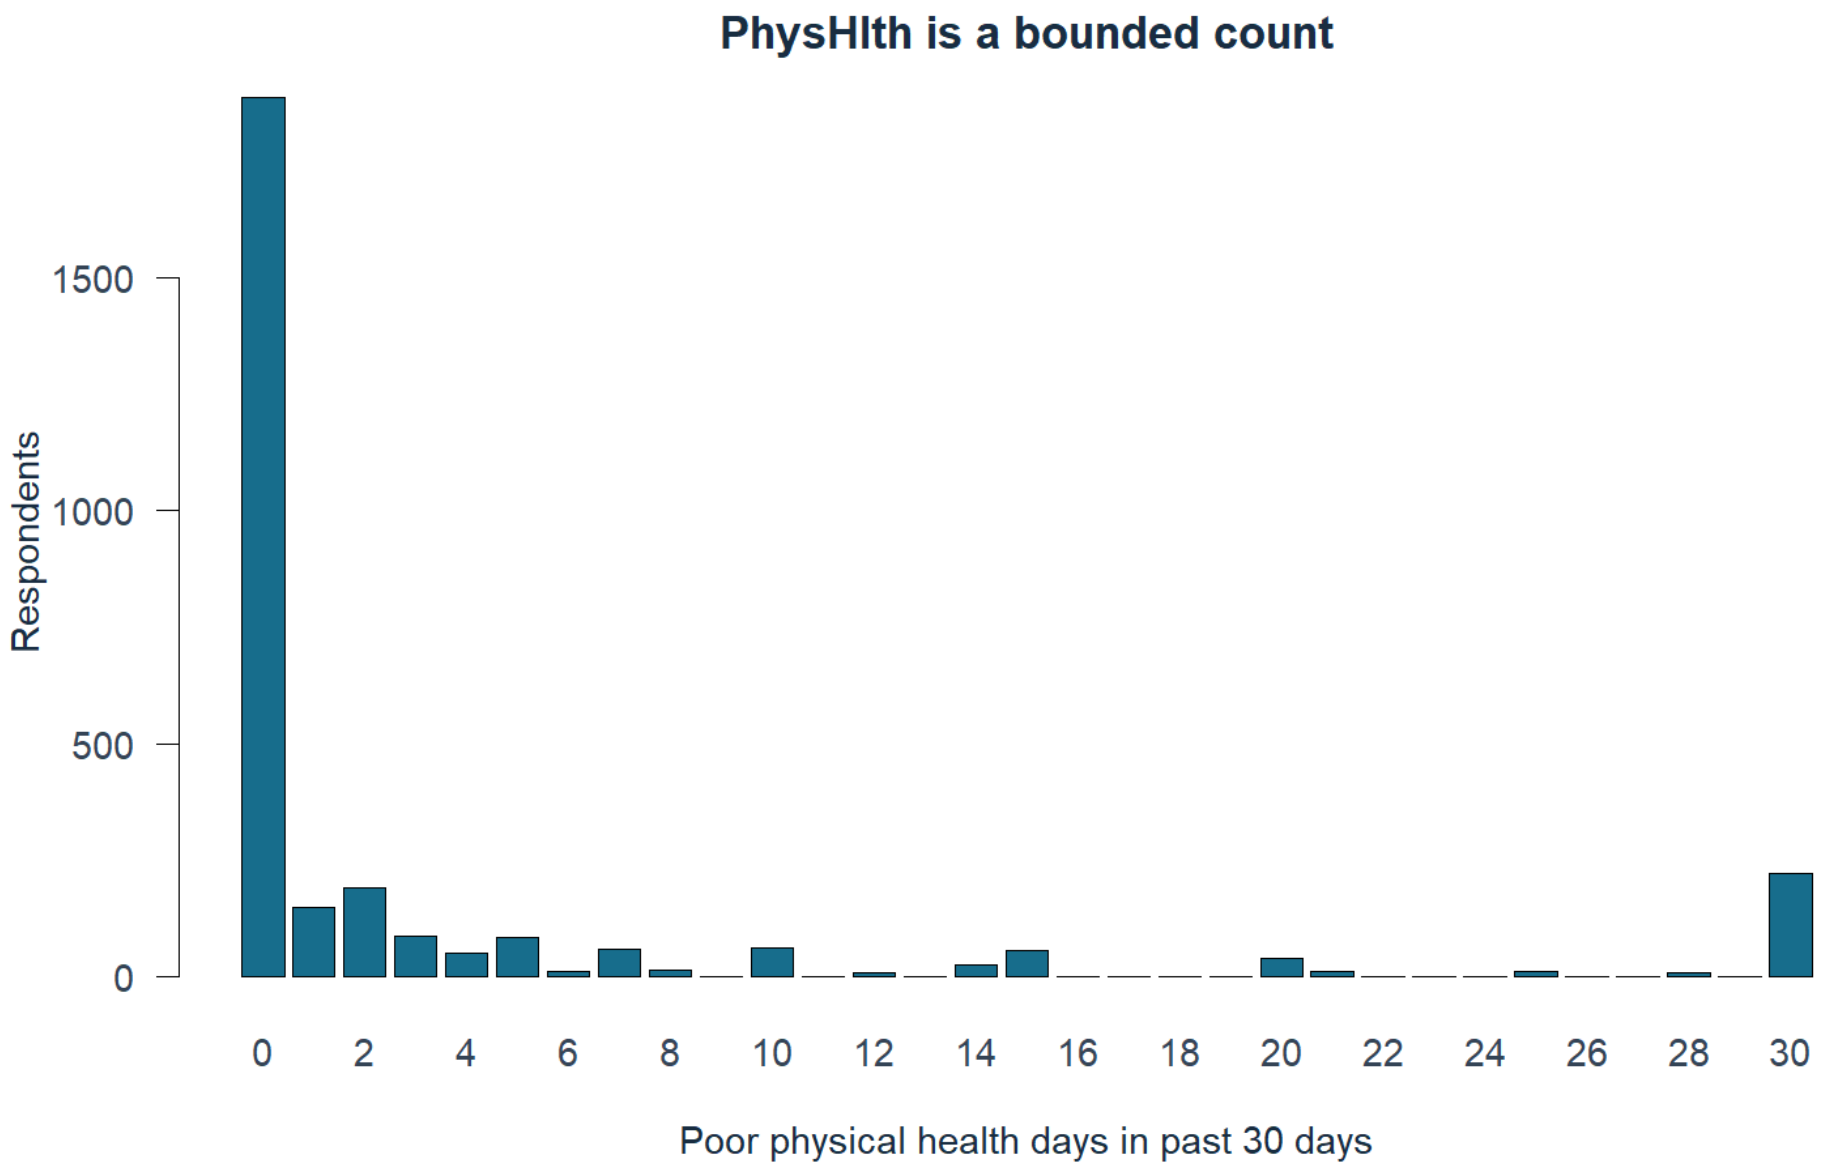

Lab02_Summary_Stats/output/bar_education.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

04 bar phys days

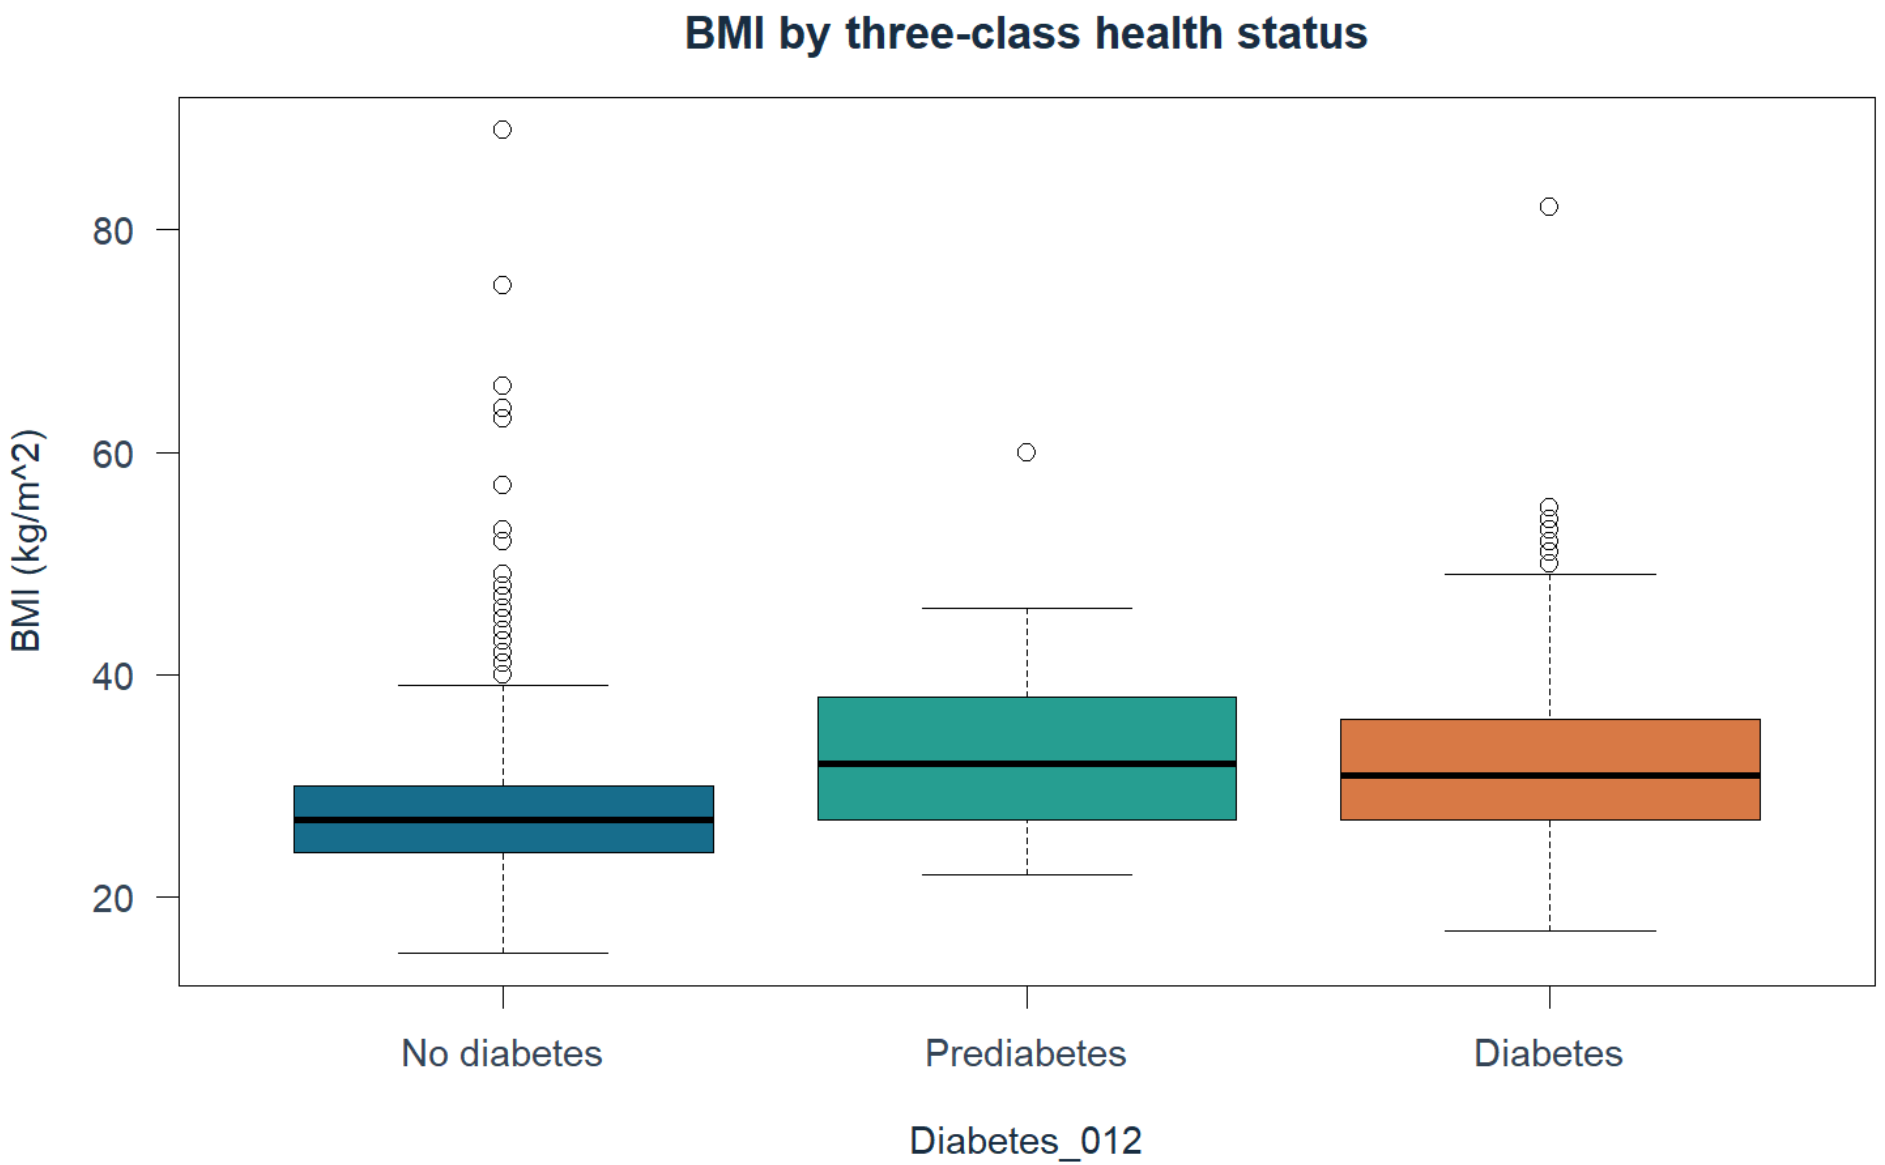

Lab02_Summary_Stats/output/bar_phys_days.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

05 box bmi by diabetes

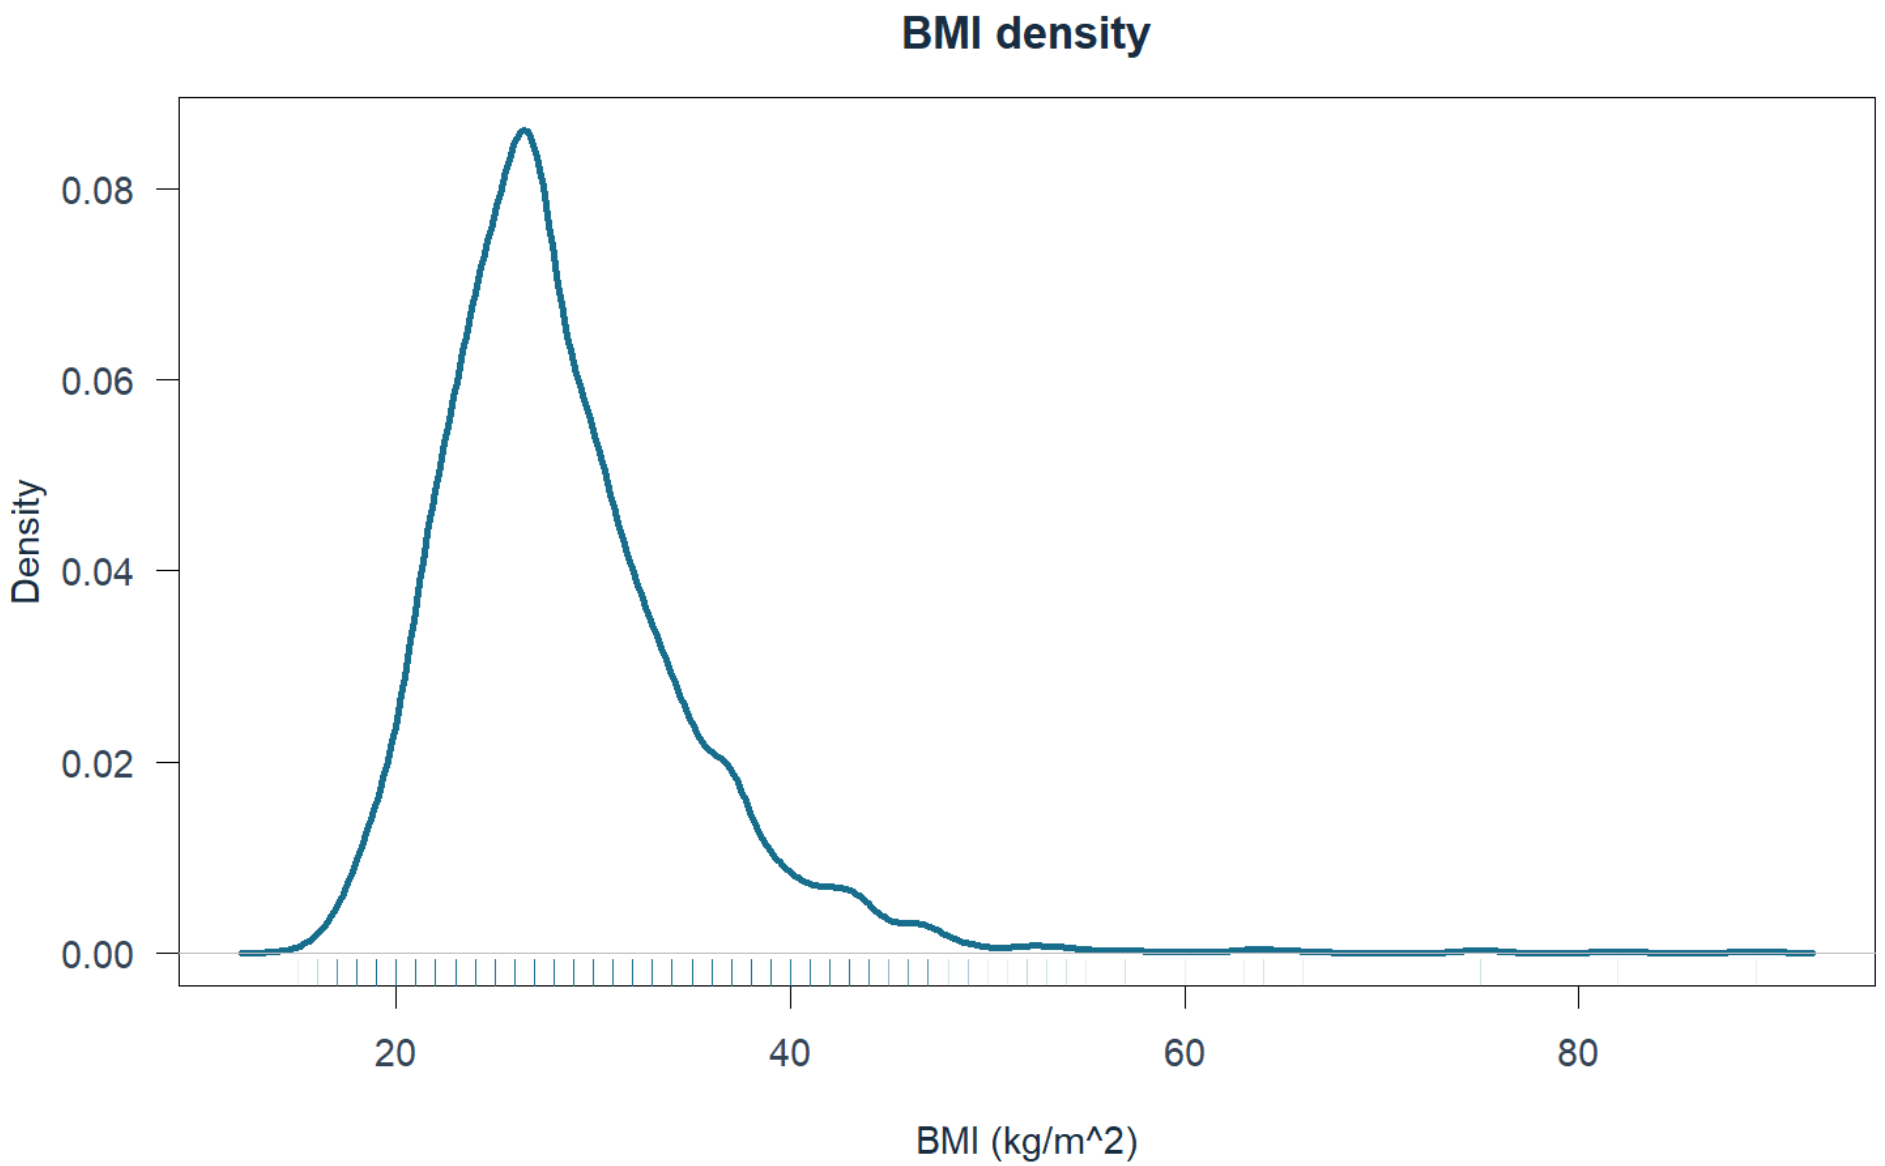

Lab02_Summary_Stats/output/box_bmi_by_diabetes.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

06 density bmi

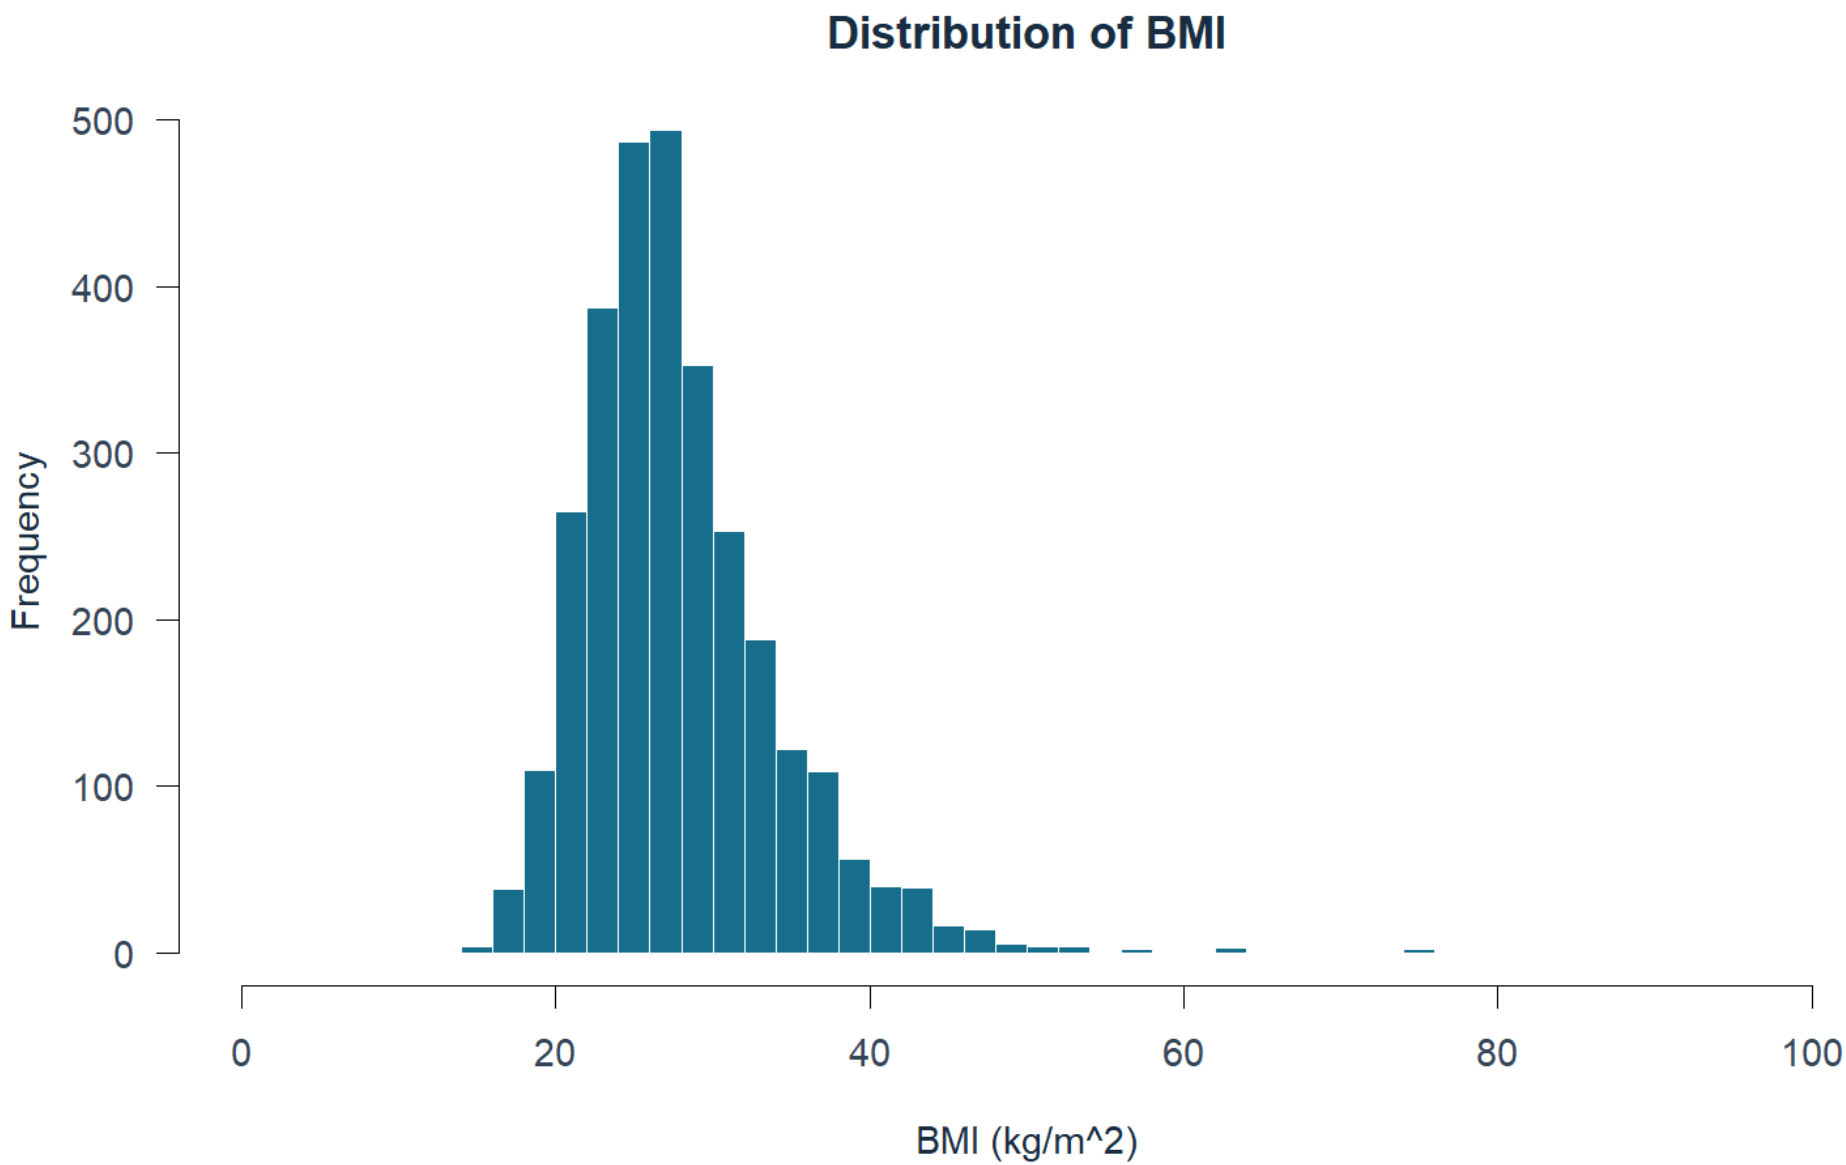

Lab02_Summary_Stats/output/density_bmi.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

07 hist bmi

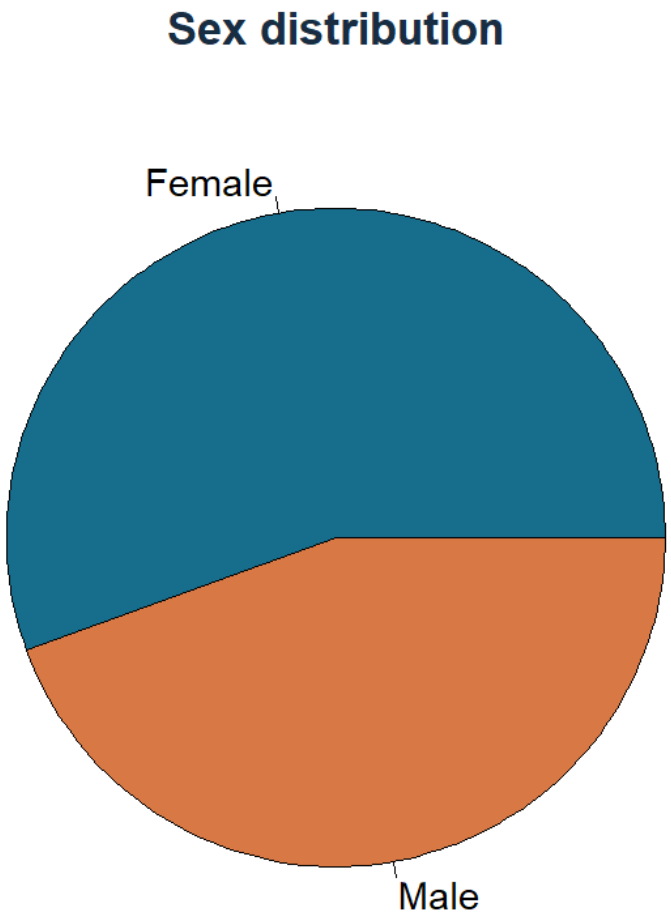

Lab02_Summary_Stats/output/hist_bmi.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

08 pie sex

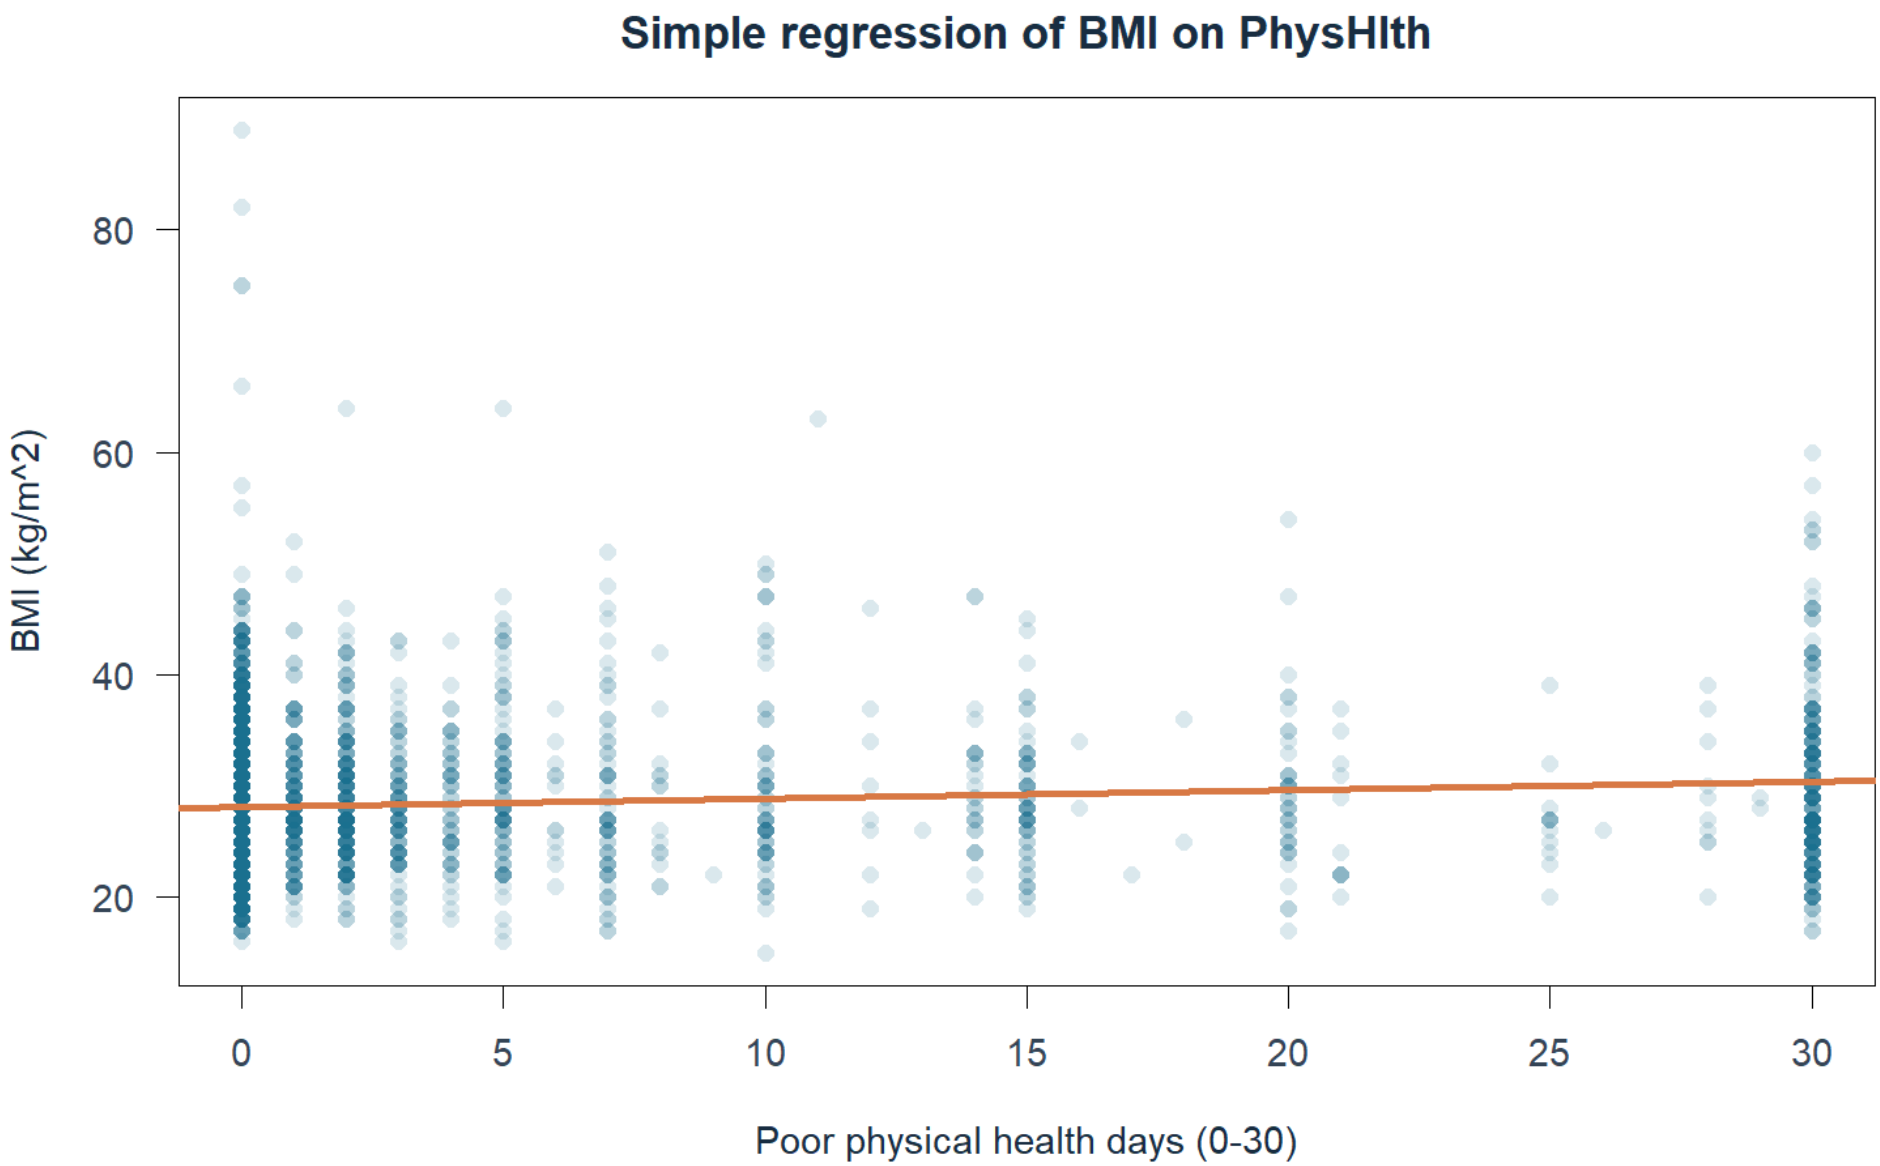

Lab02_Summary_Stats/output/pie_sex.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

09 scatter bmi physhlth

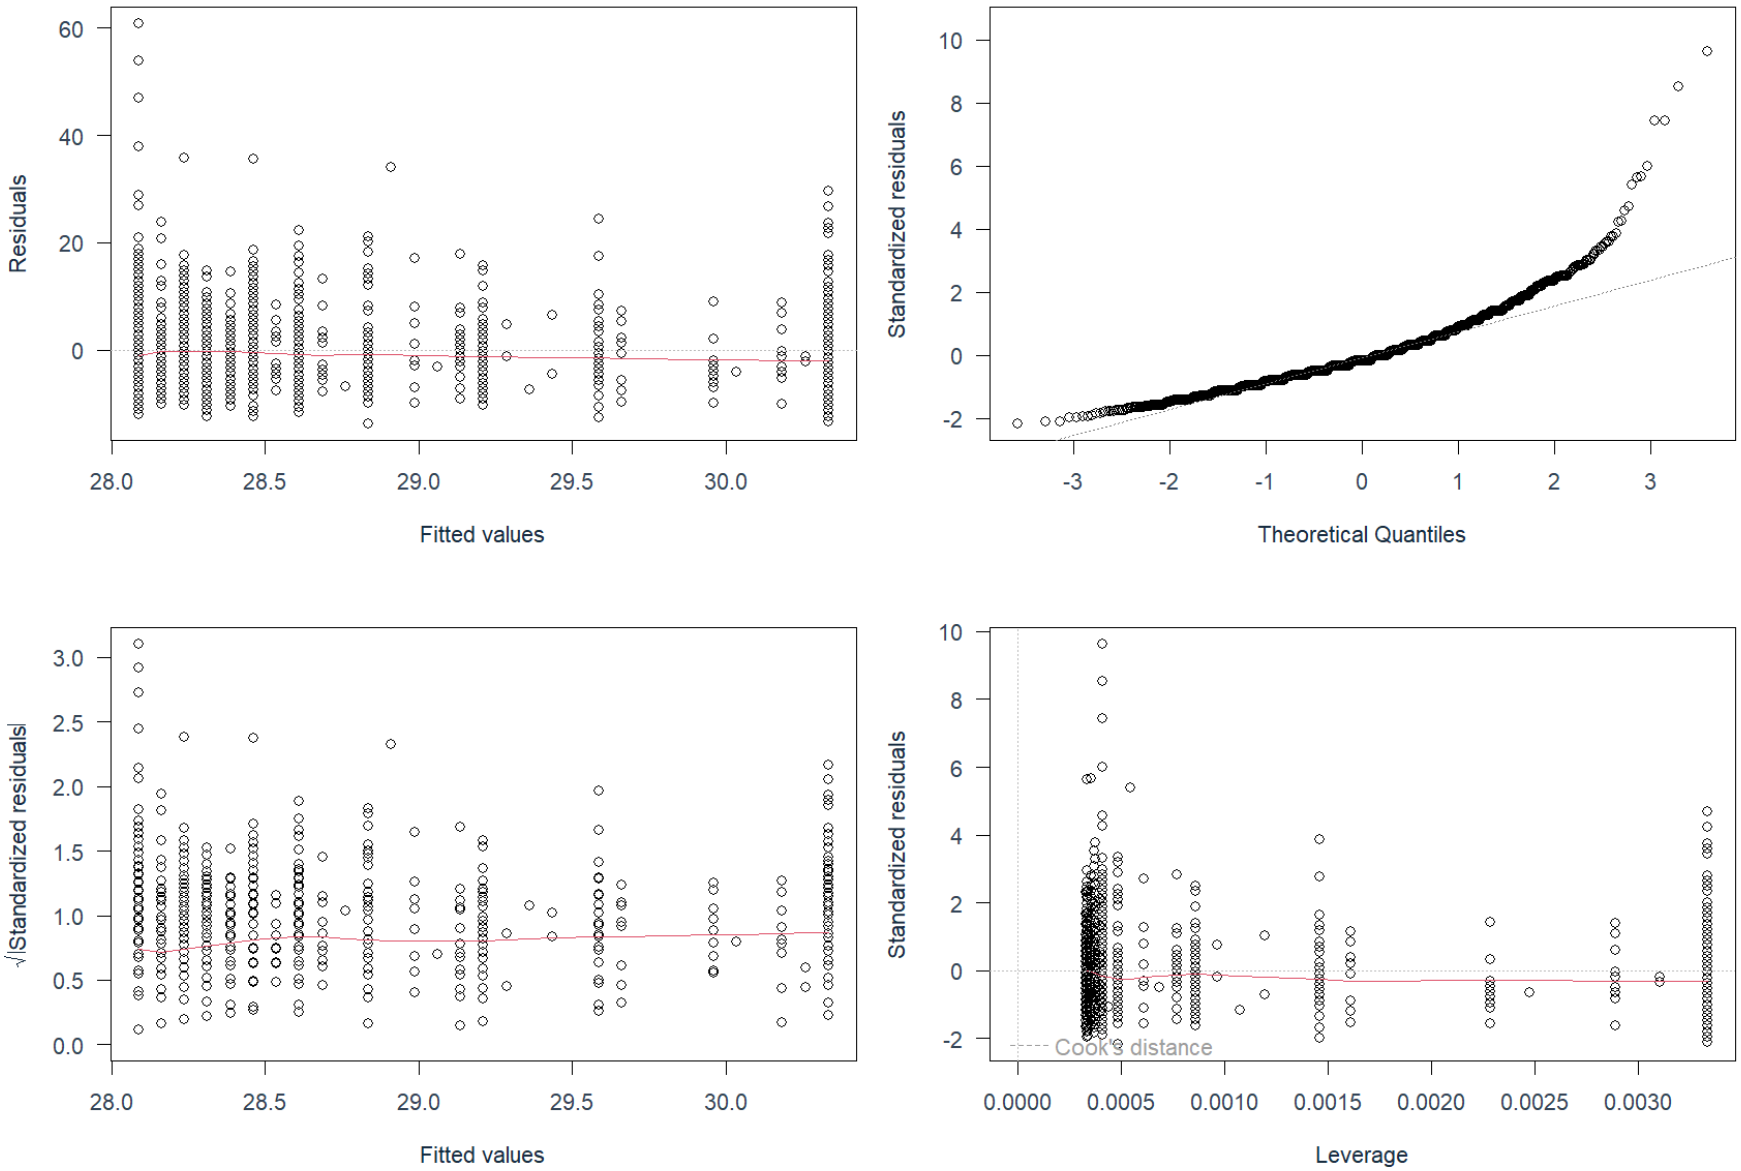

Lab03_Correlation_Regression/output/scatter_bmi_physhlth.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

10 simple diagnostics

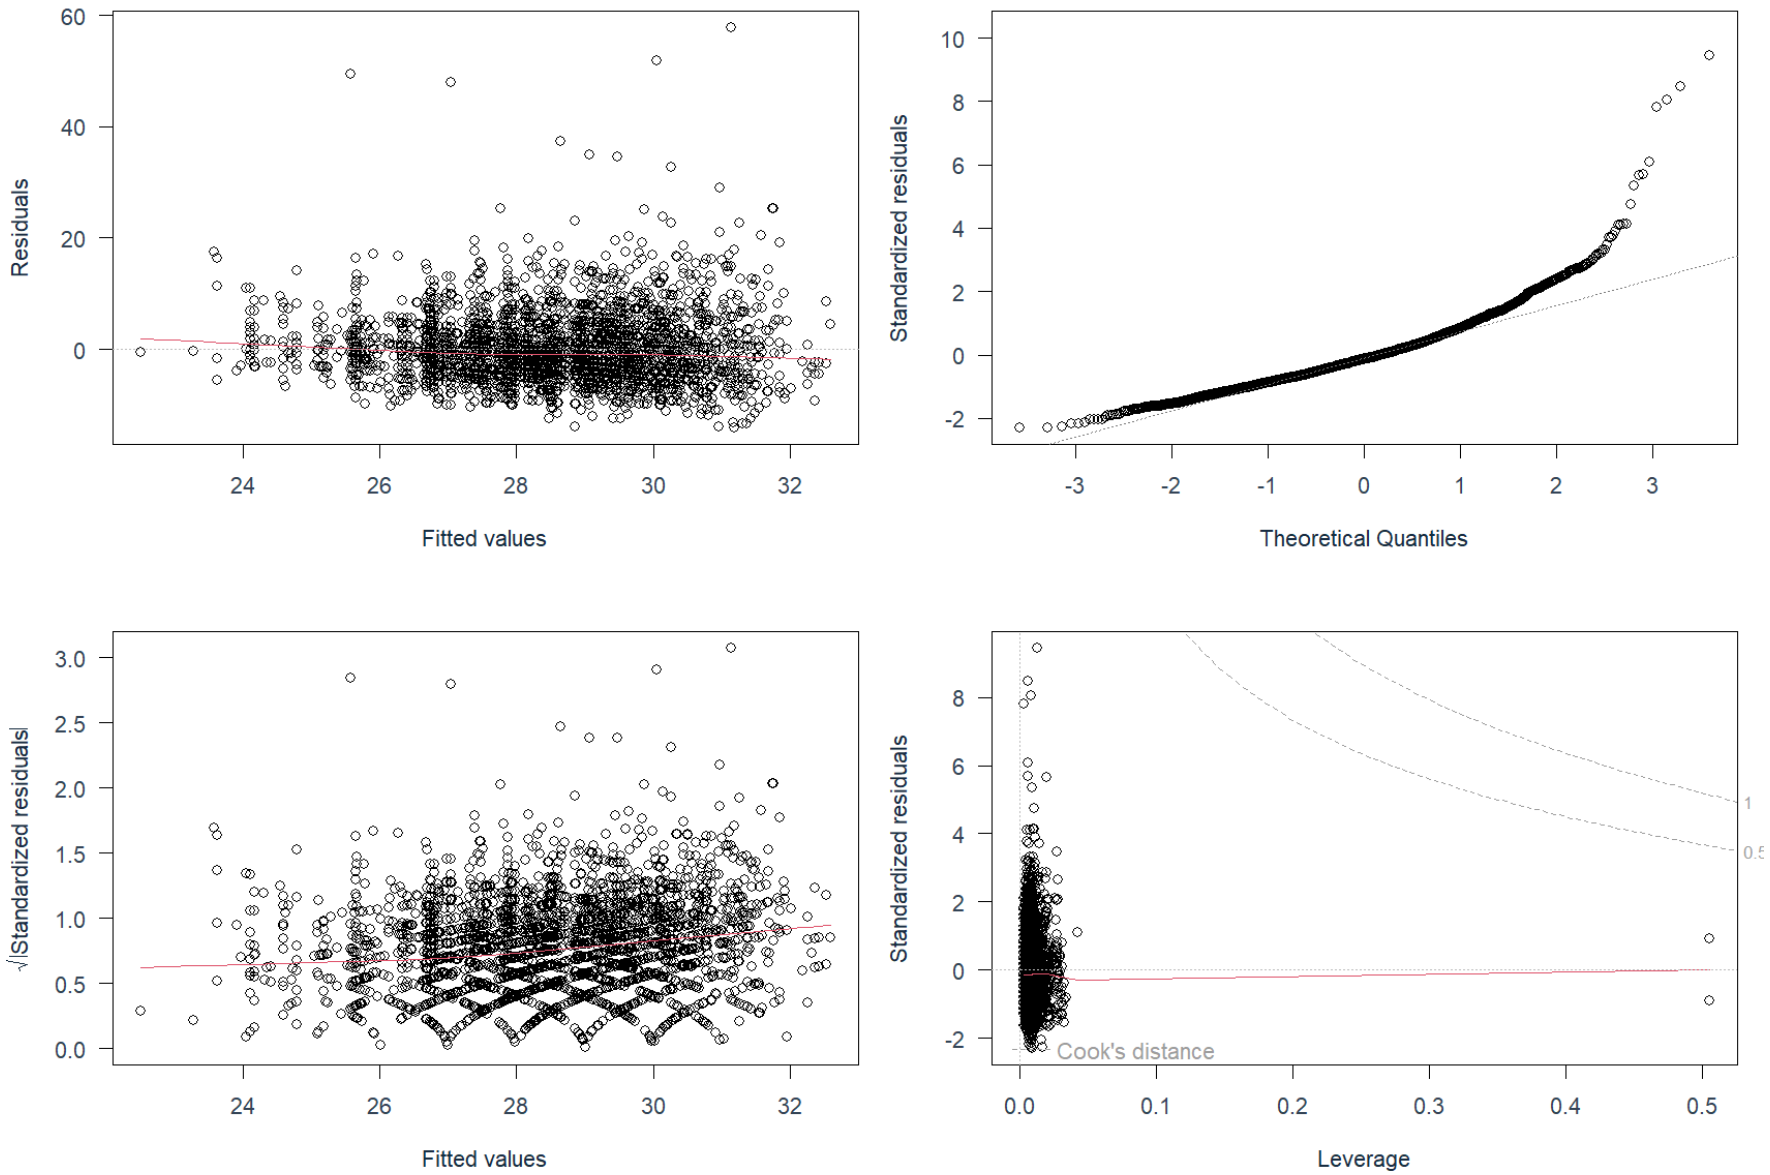

Lab03_Correlation_Regression/output/simple_diagnostics.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

11 multiple diagnostics

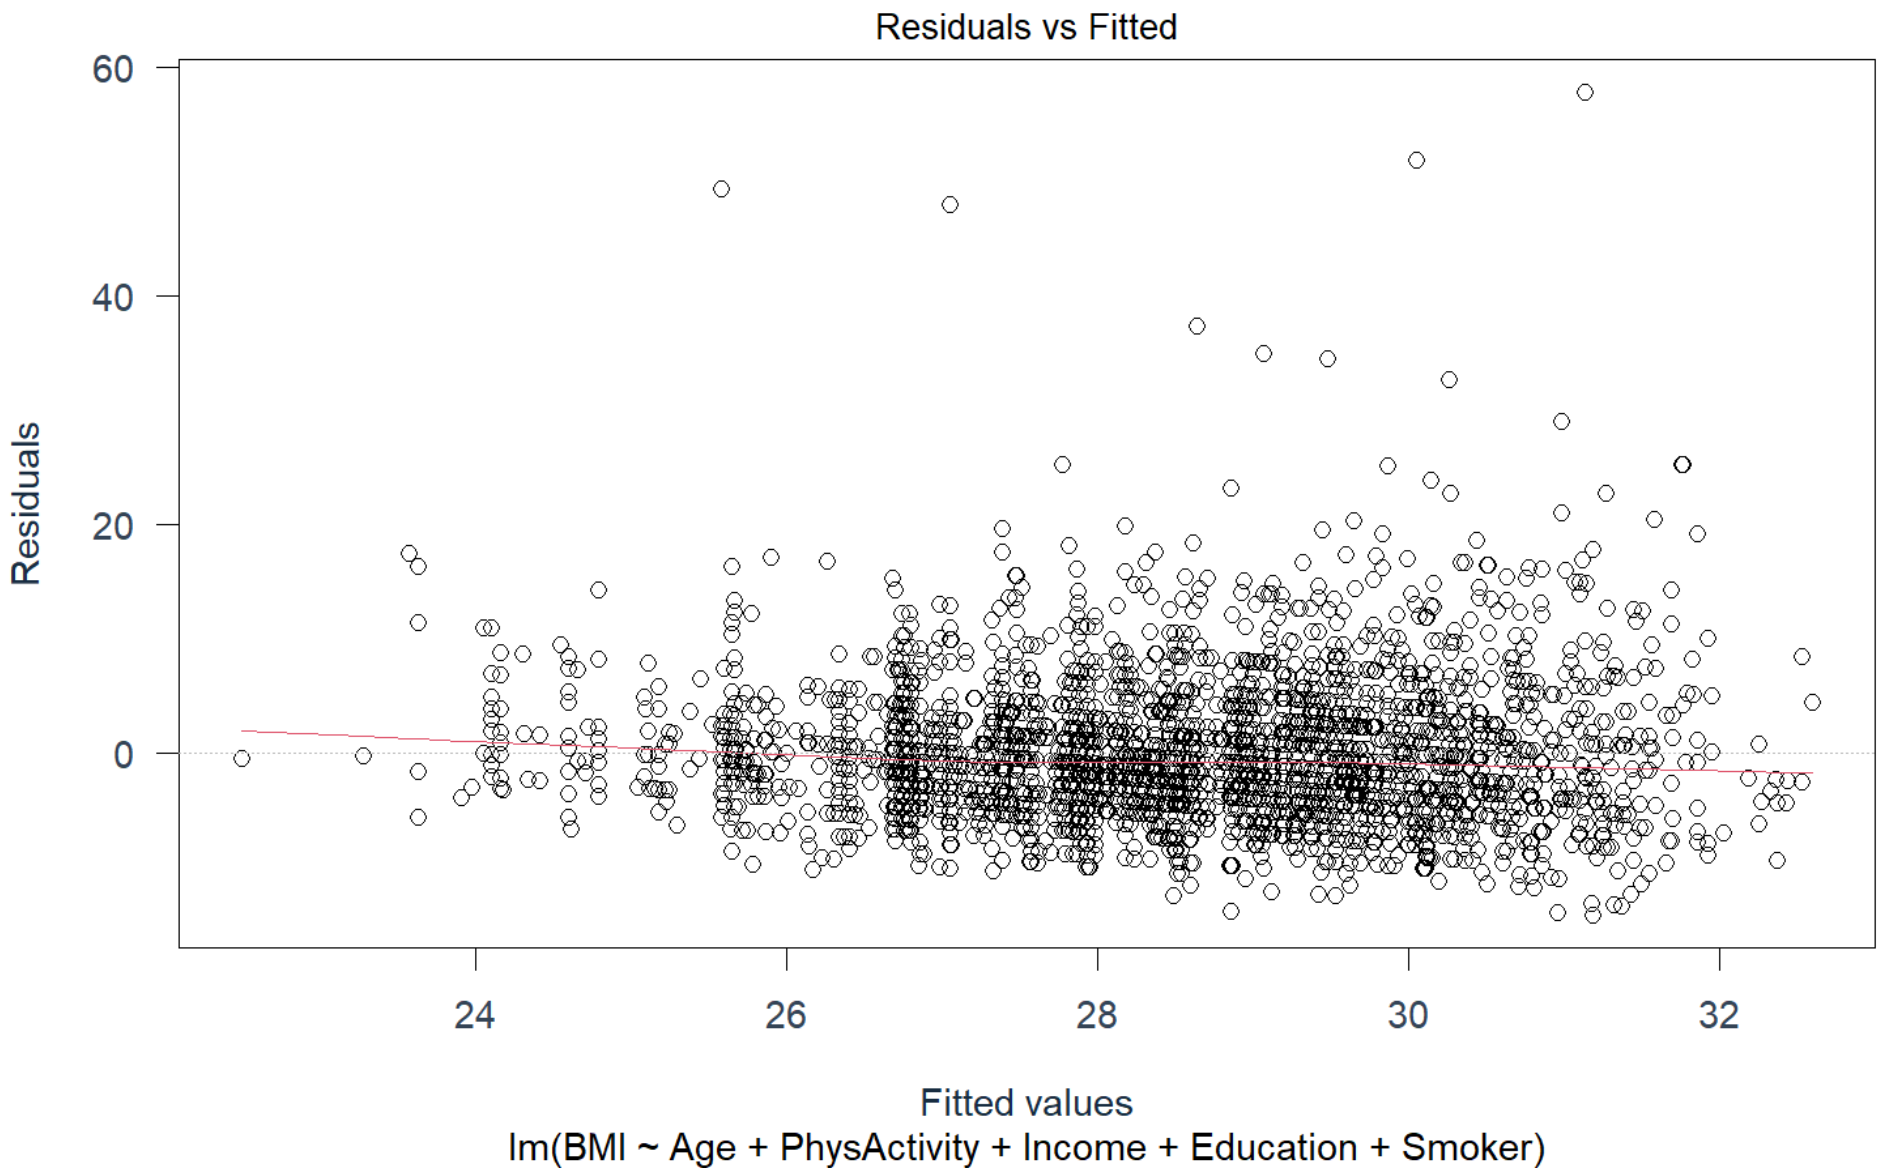

Lab04_Multiple_Regression/output/multiple_diagnostics.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

12 residuals vs fitted

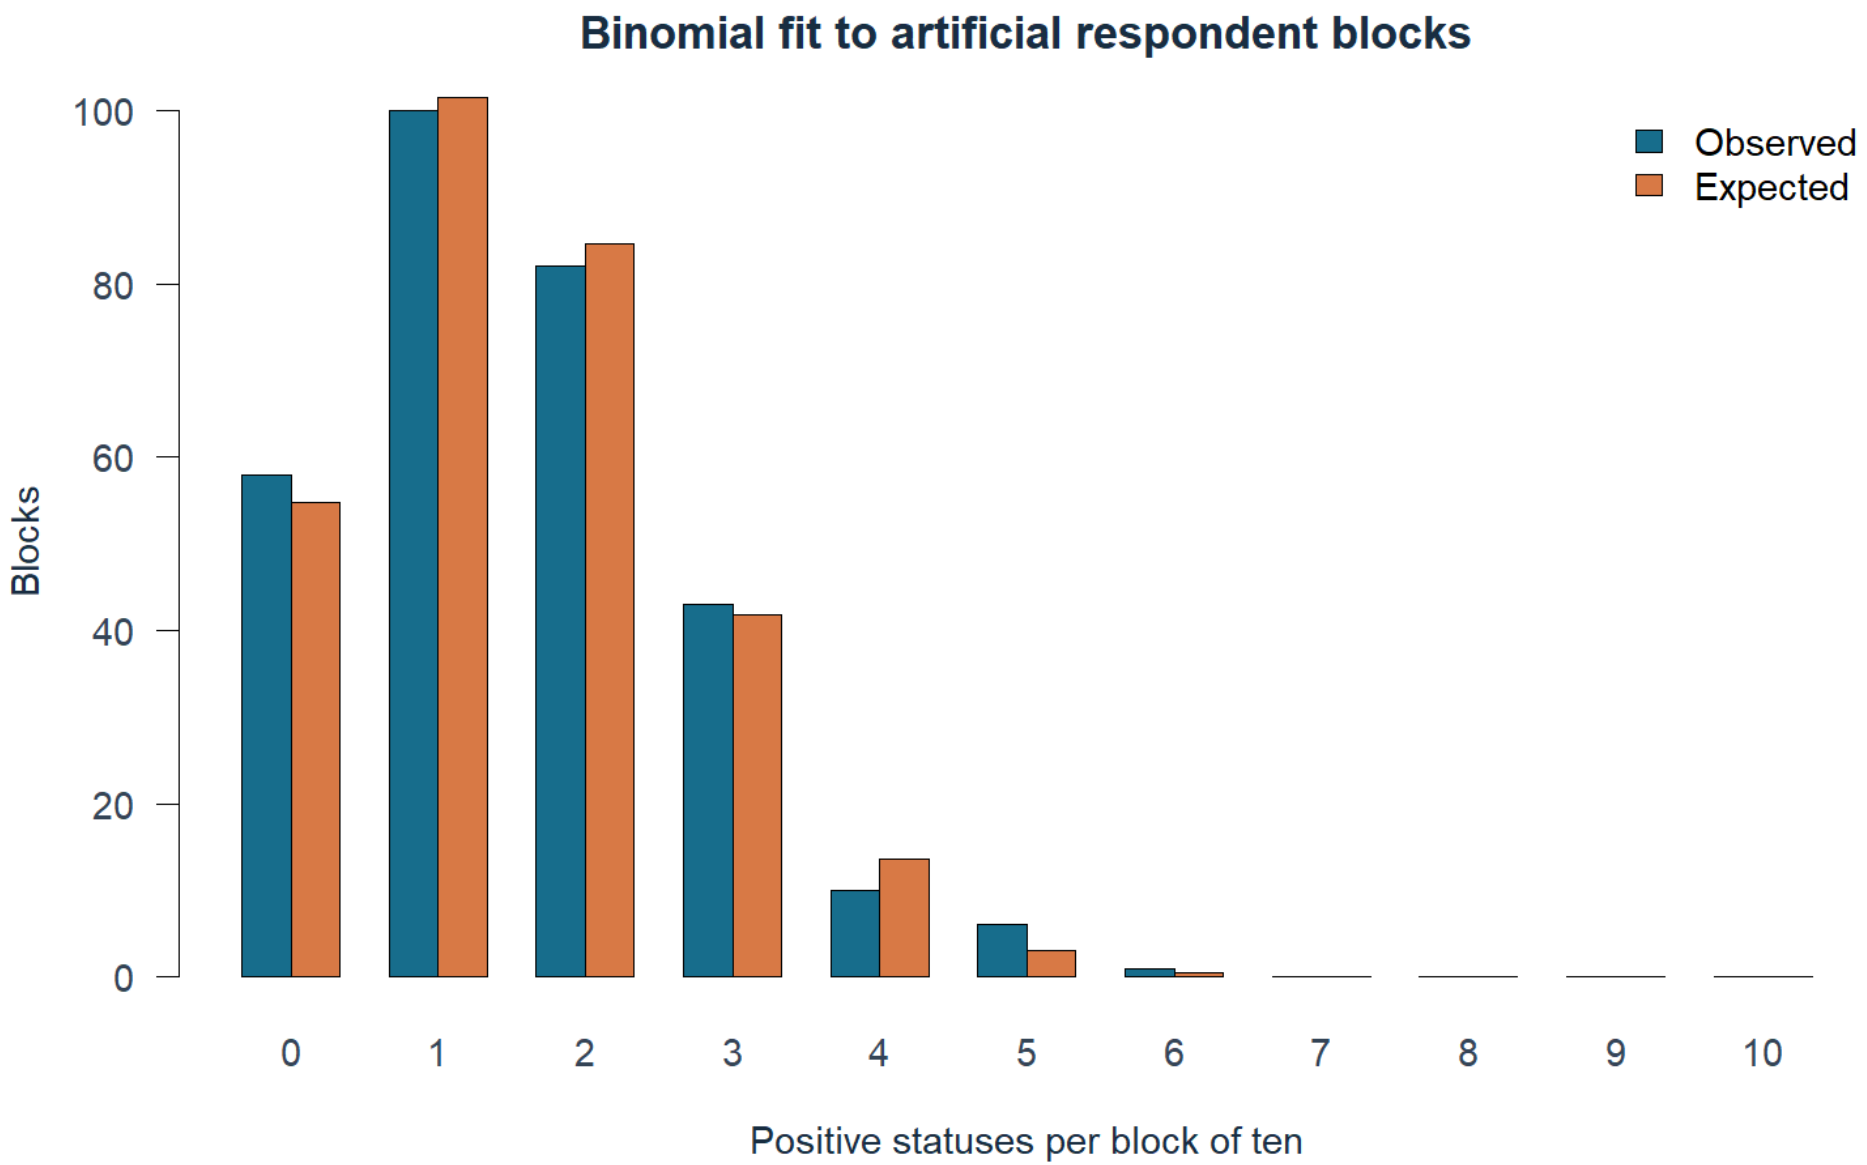

Lab04_Multiple_Regression/output/residuals_vs_fitted.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

13 binomial observed vs expected

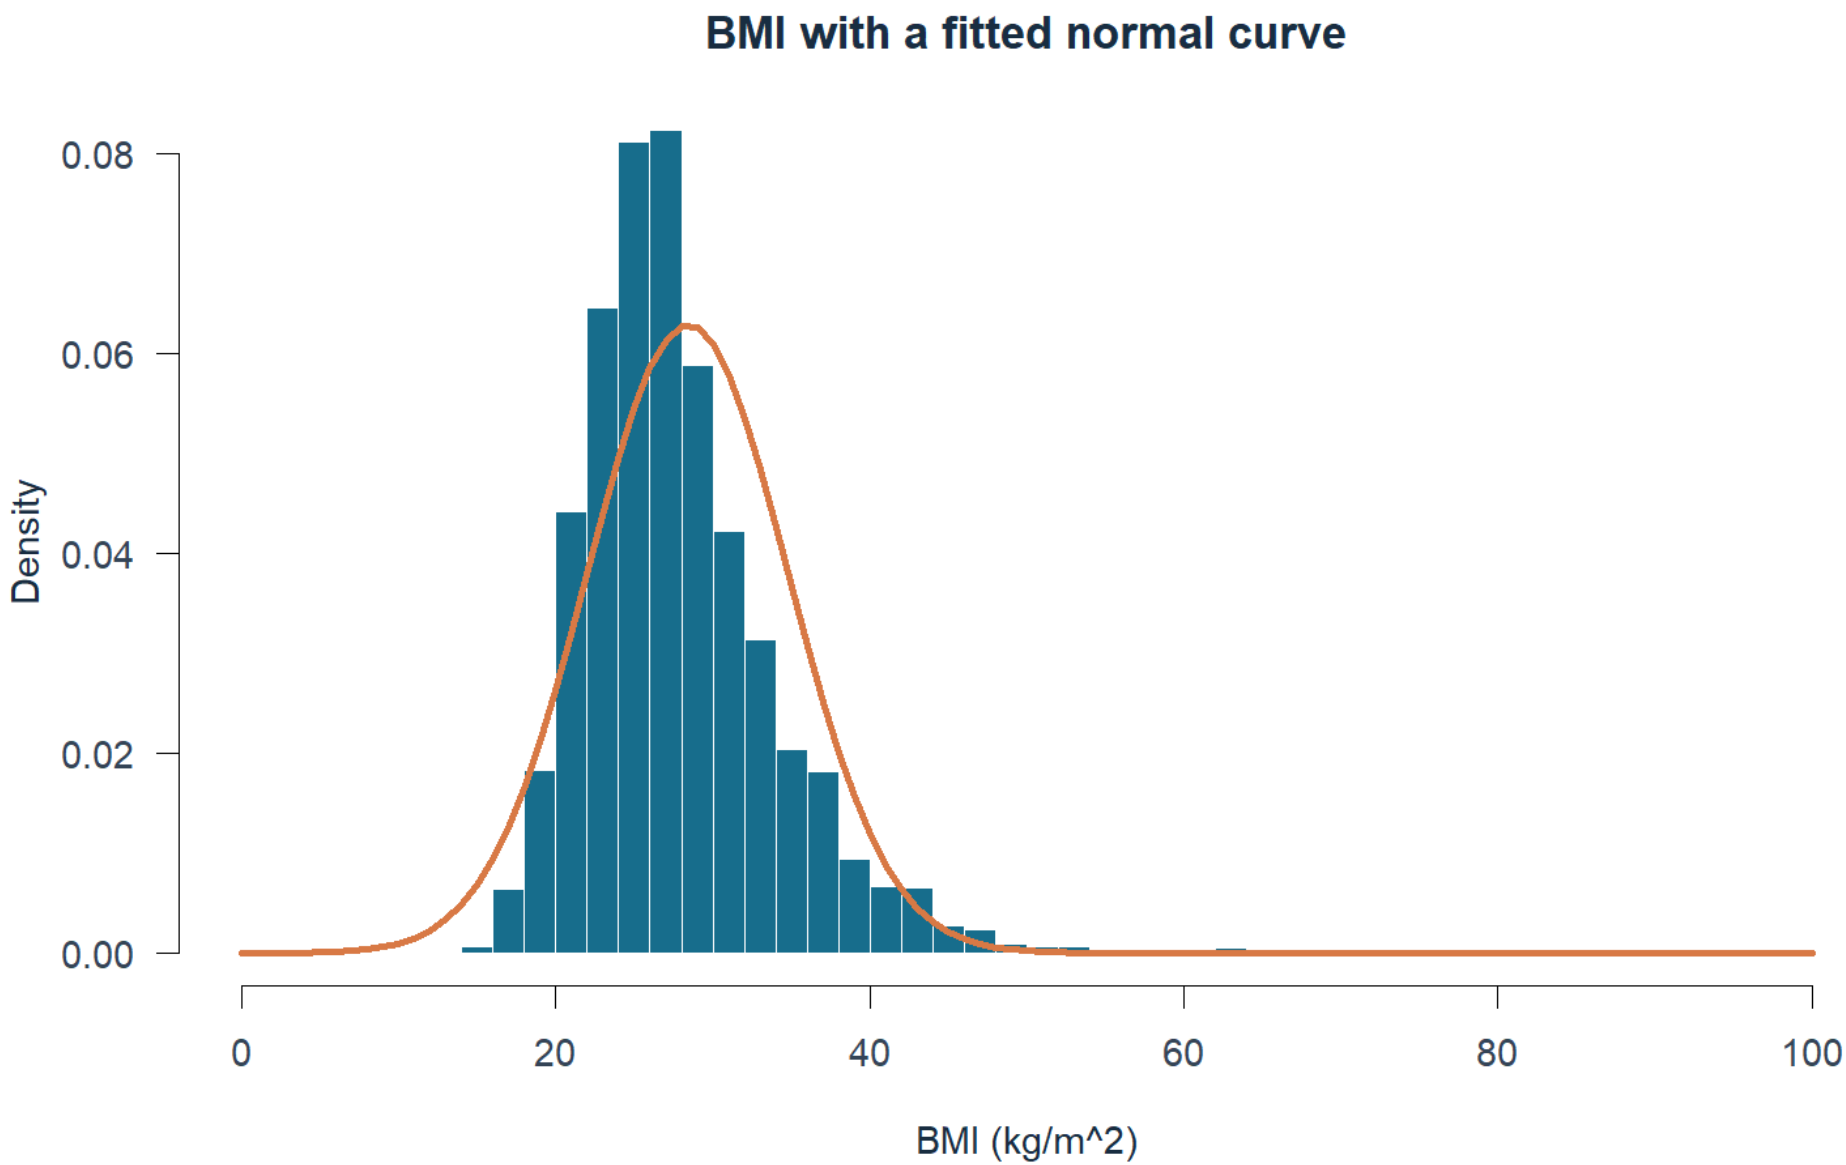

Lab05_Binomial_Fitting/output/binomial_observed_vs_expected.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

14 normal bmi hist

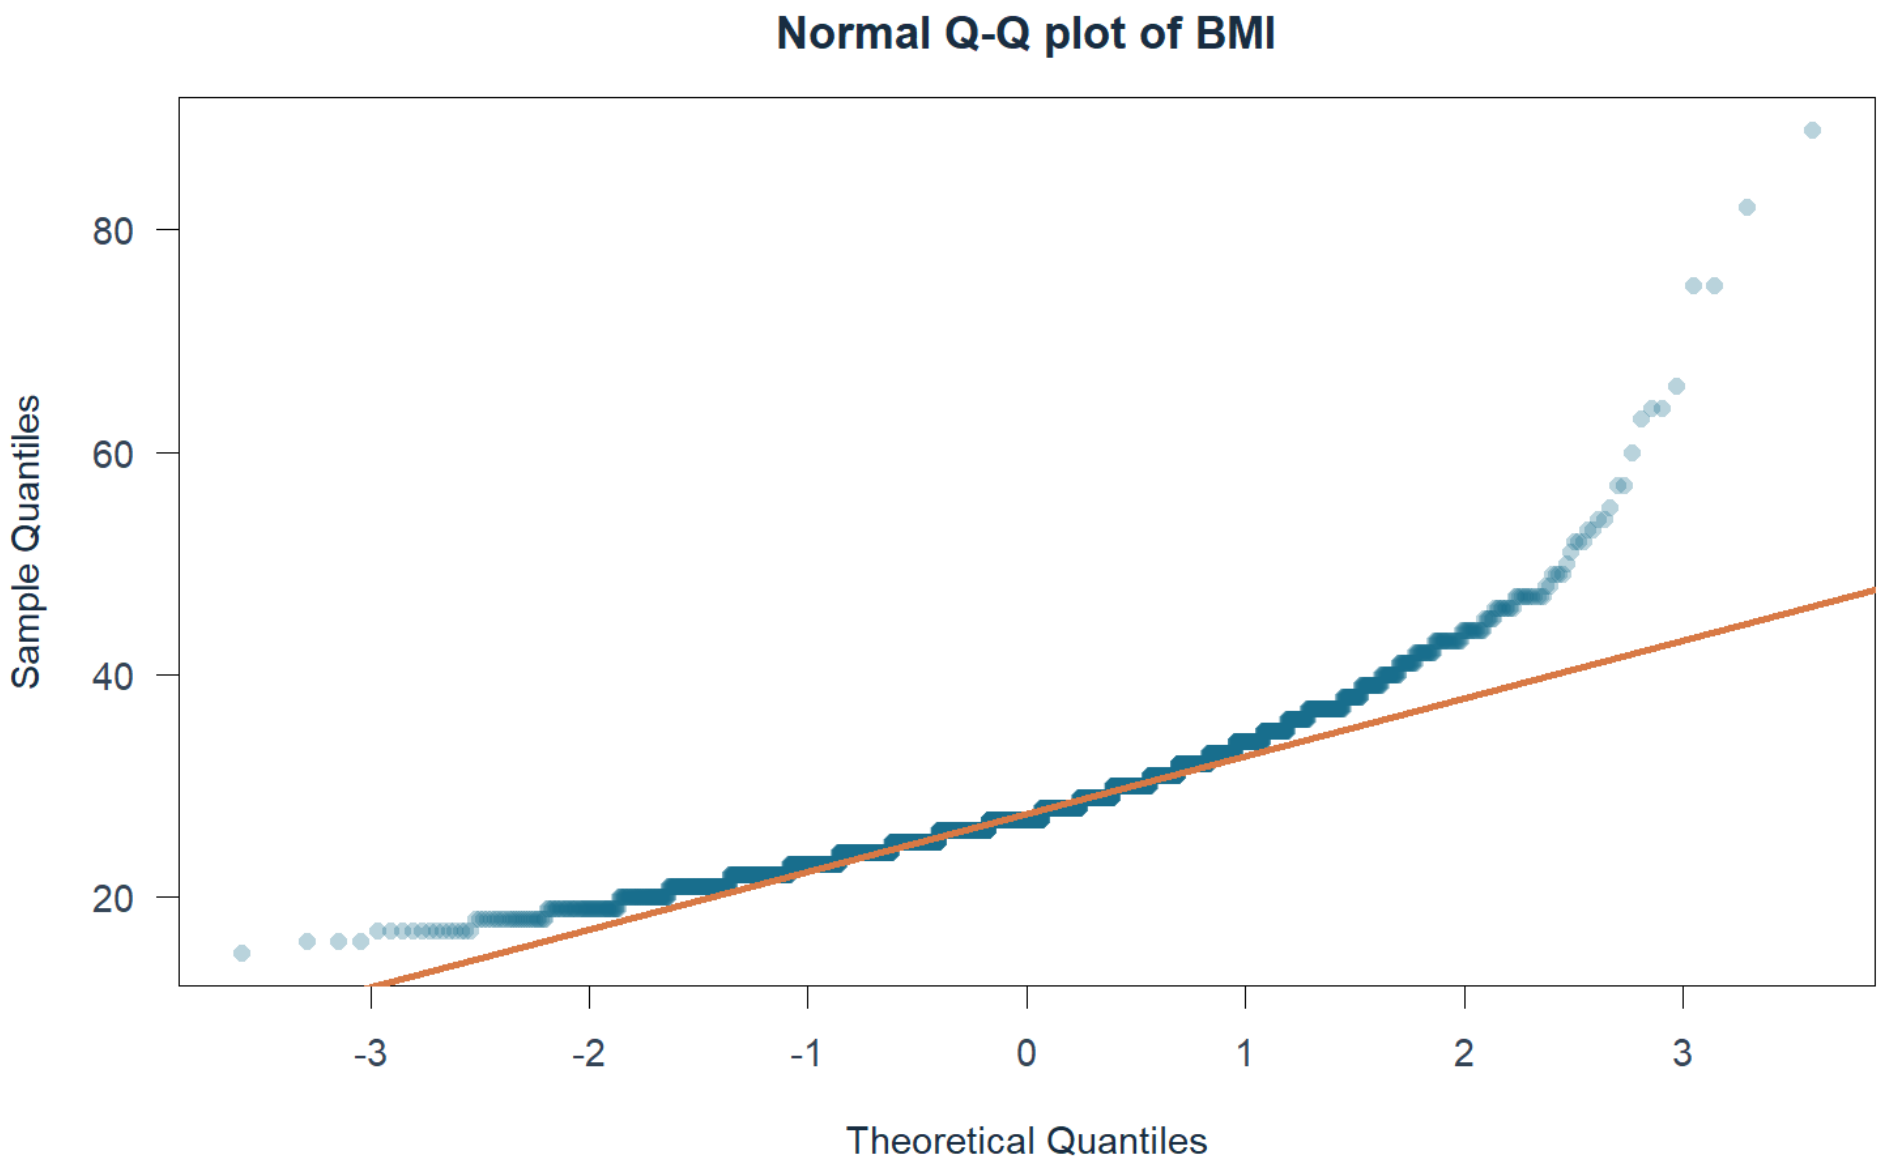

Lab06_Normal_Poisson_Fitting/output/normal_bmi_hist.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

15 normal bmi qq

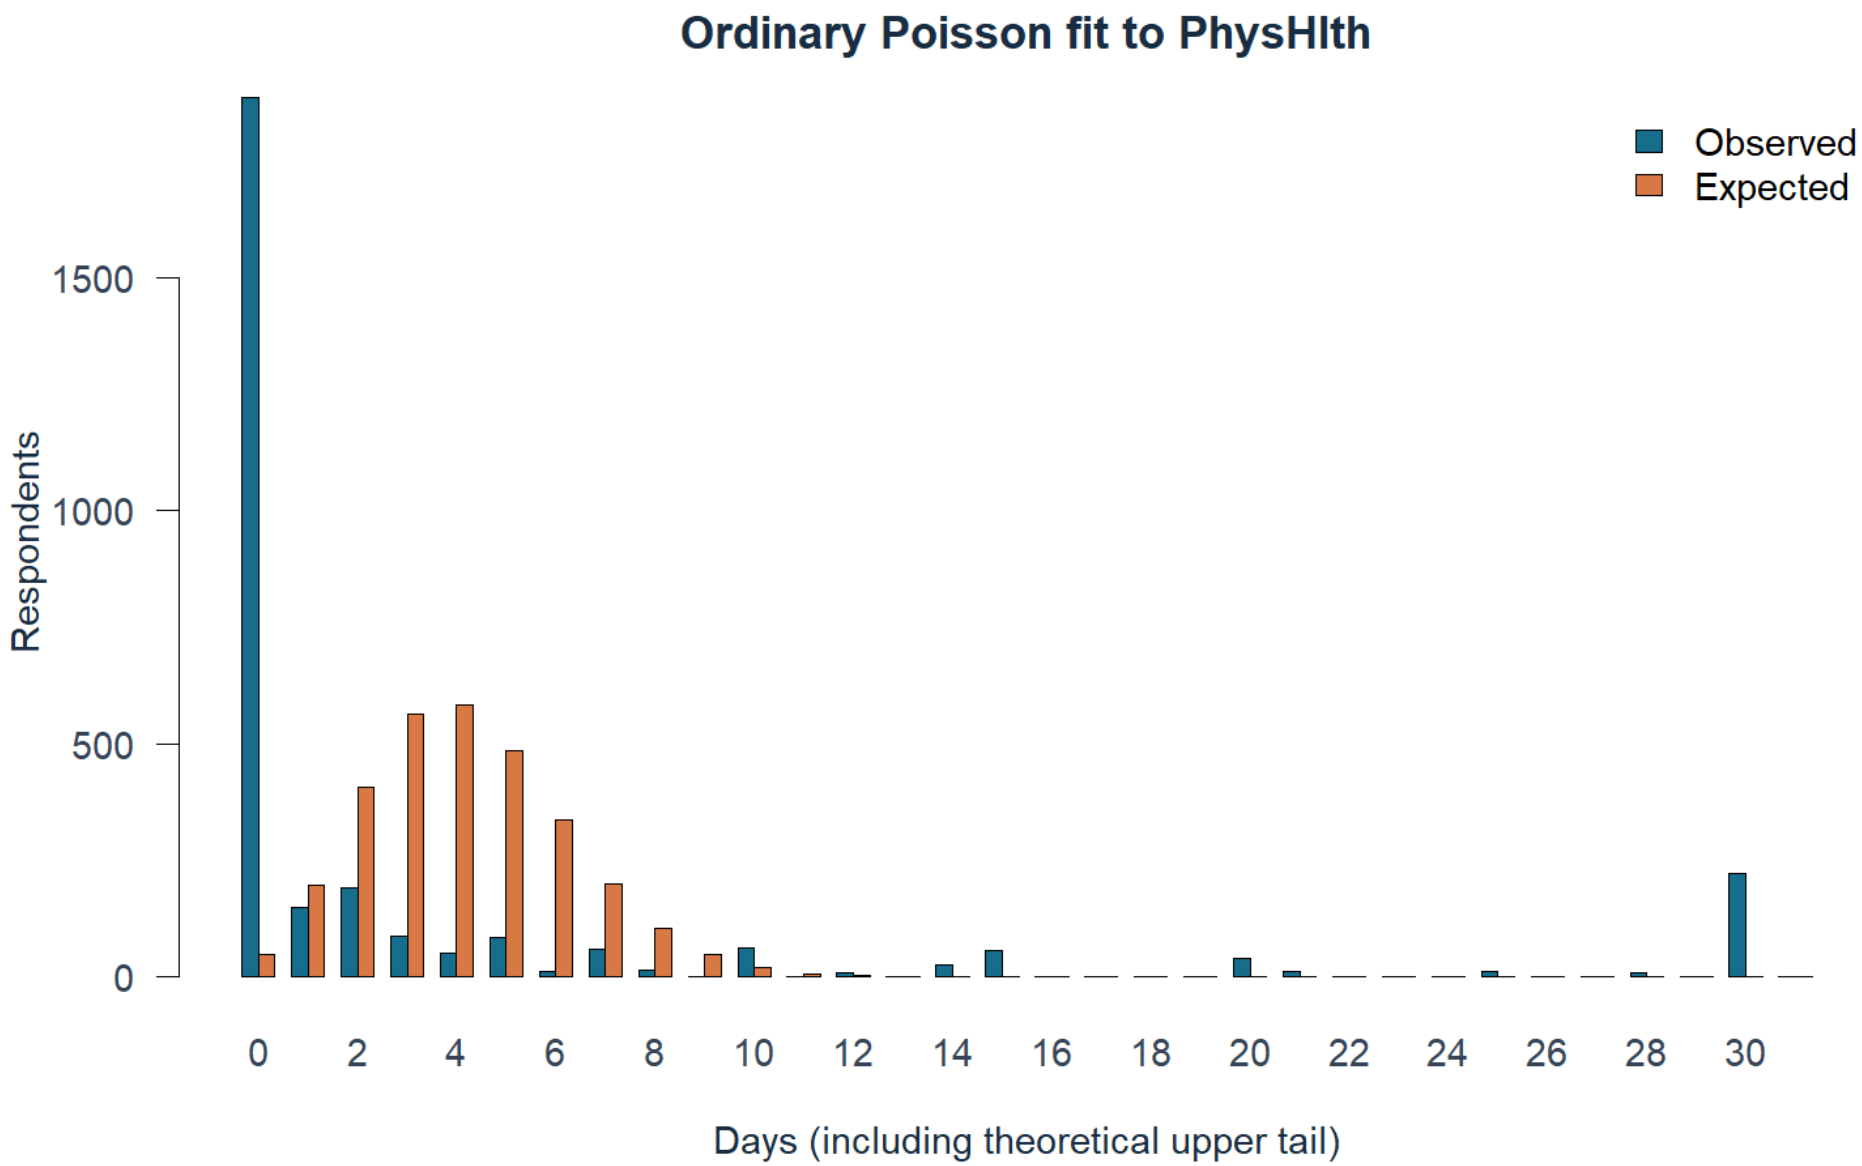

Lab06_Normal_Poisson_Fitting/output/normal_bmi_qq.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

16 poisson physhlth

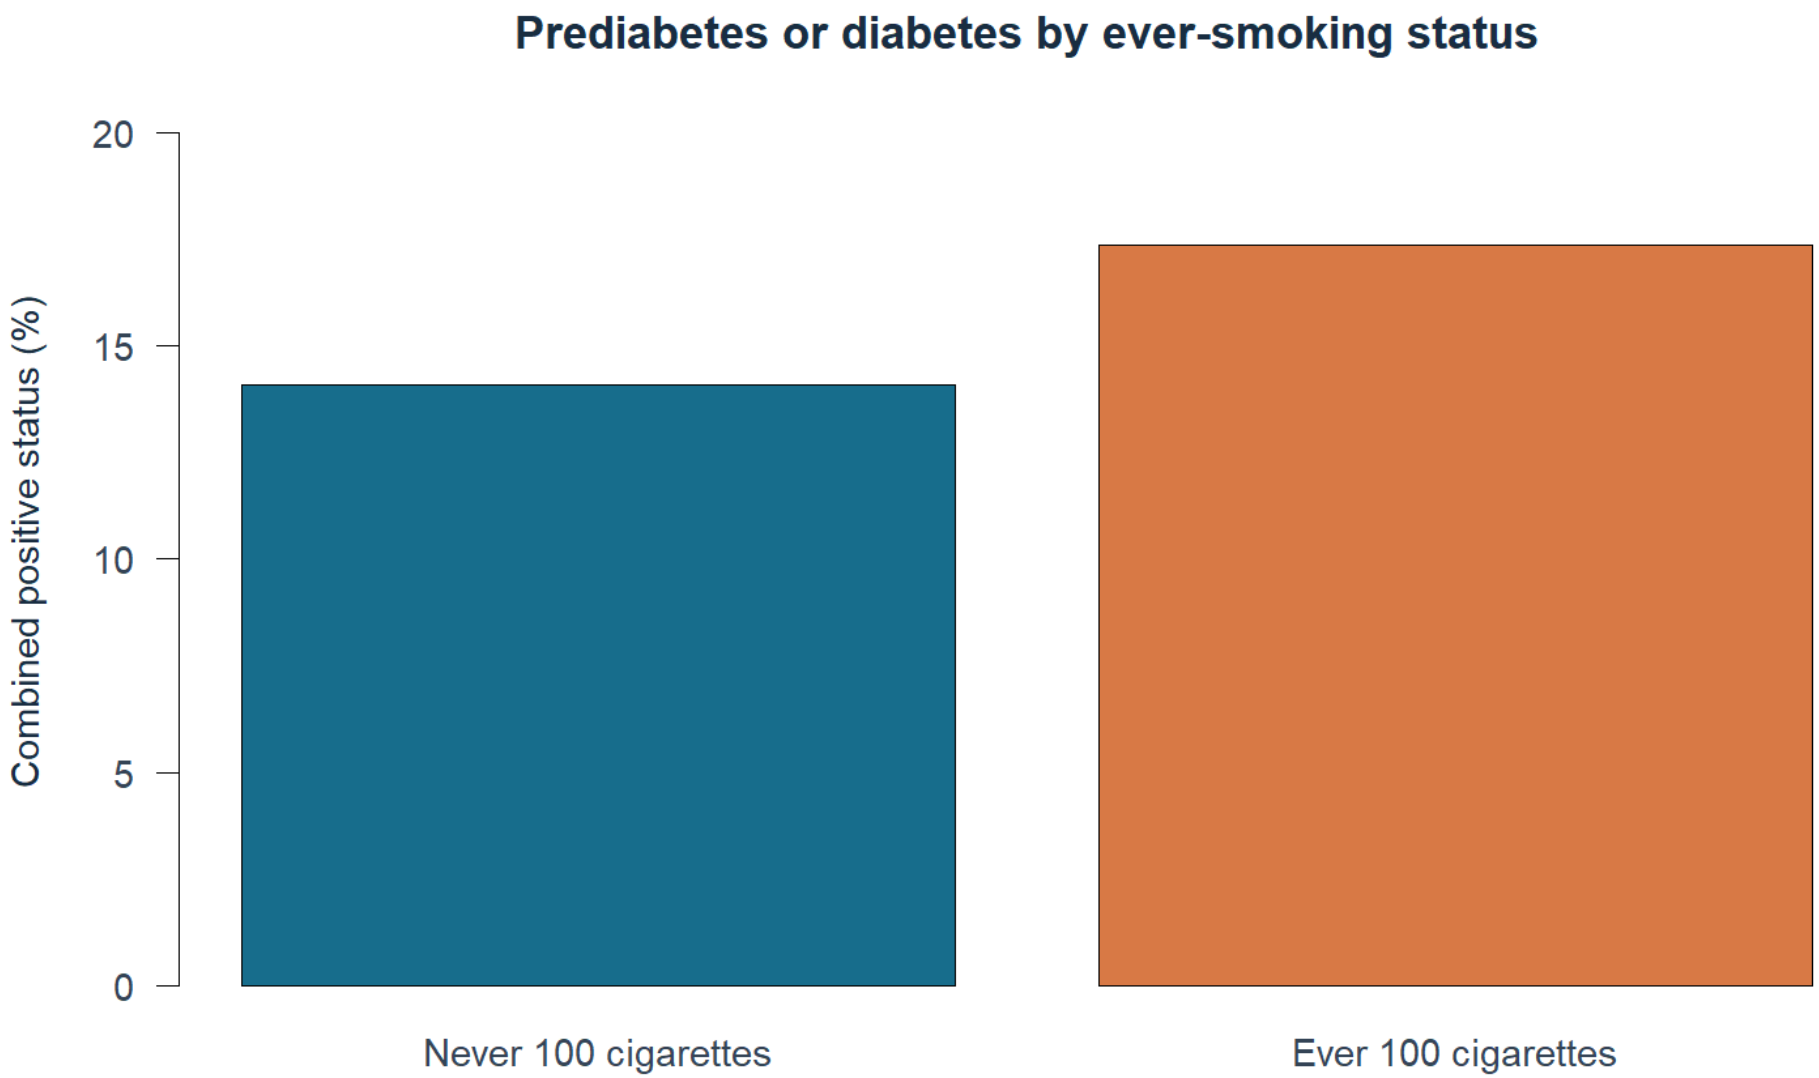

Lab06_Normal_Poisson_Fitting/output/poisson_physhlth.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

17 bar diabetes by smoker

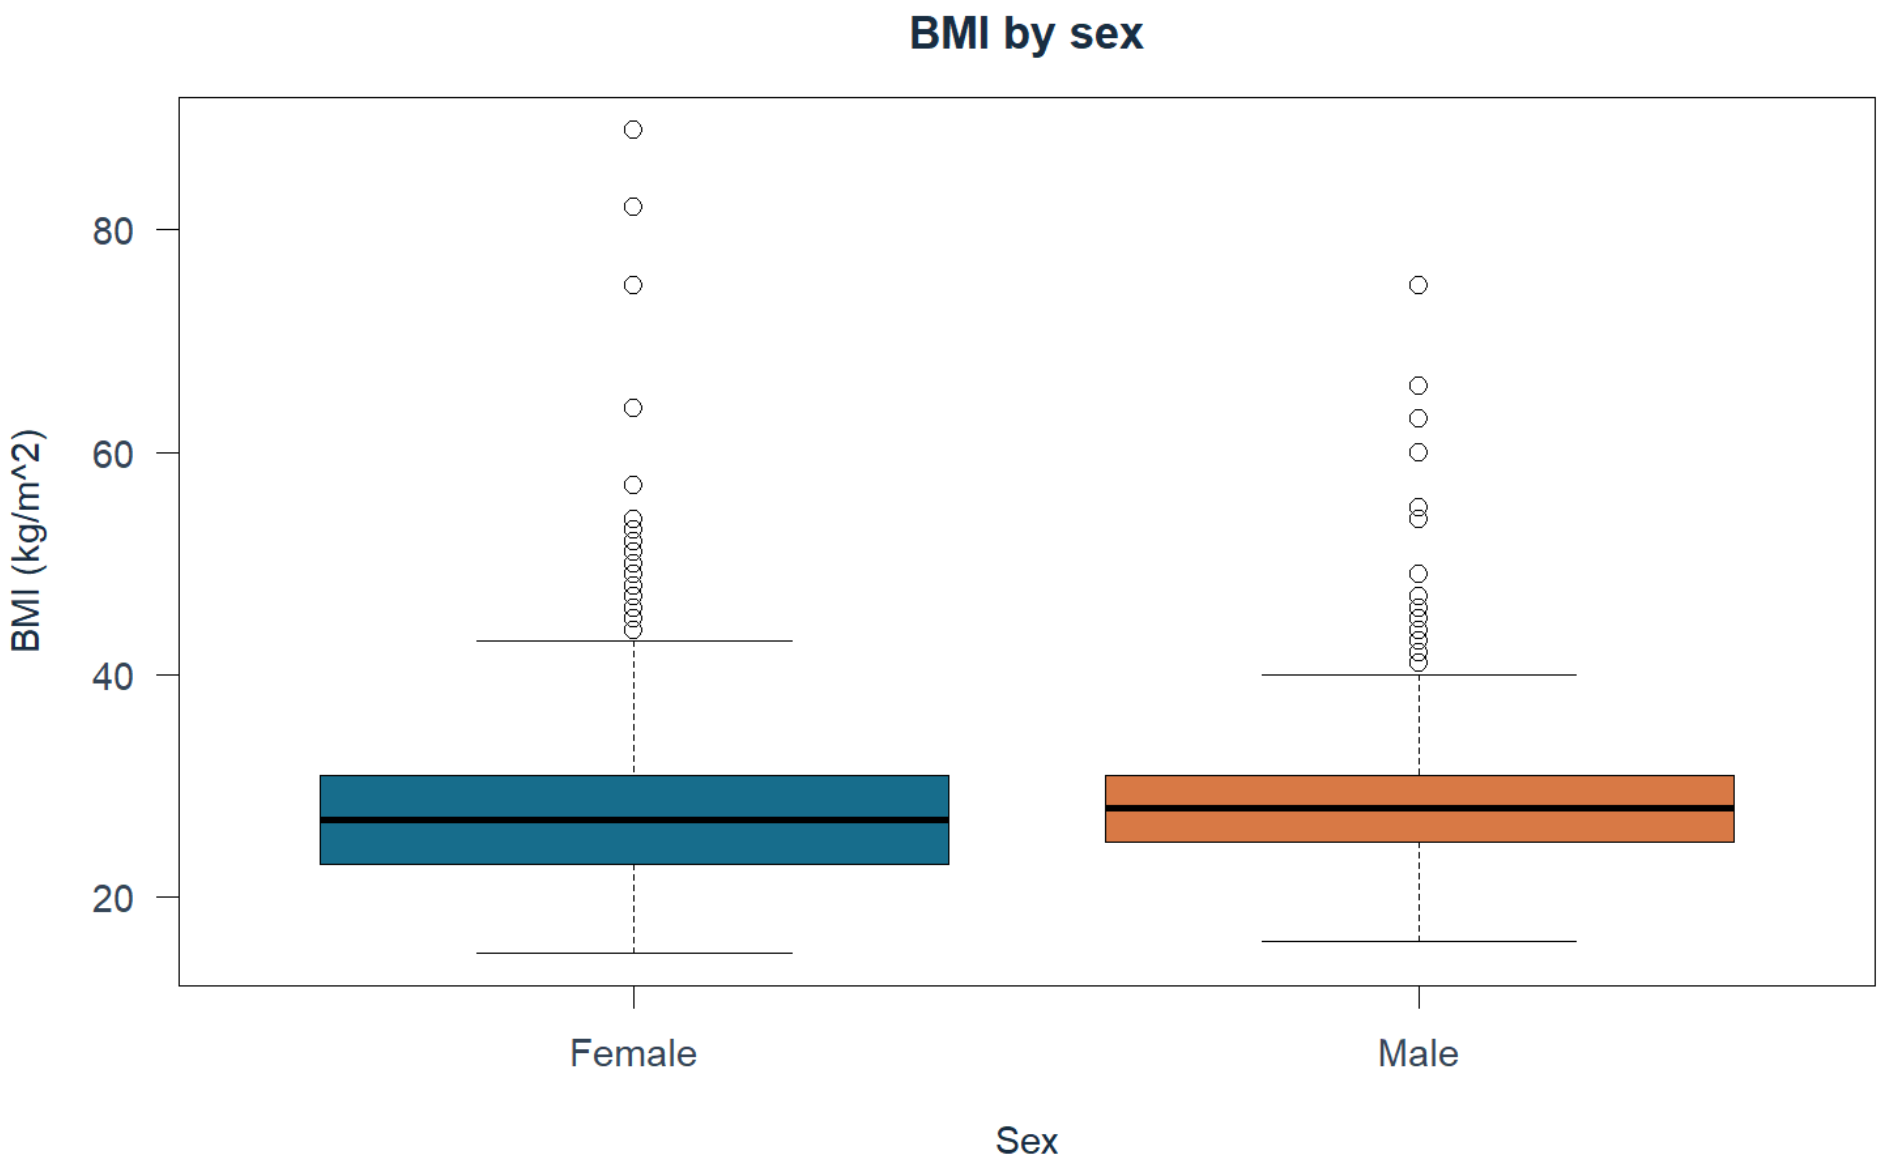

Lab08_TwoSample_Tests/output/bar_diabetes_by_smoker.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

18 box bmi by sex

Lab08_TwoSample_Tests/output/box_bmi_by_sex.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

19 paired difference qq

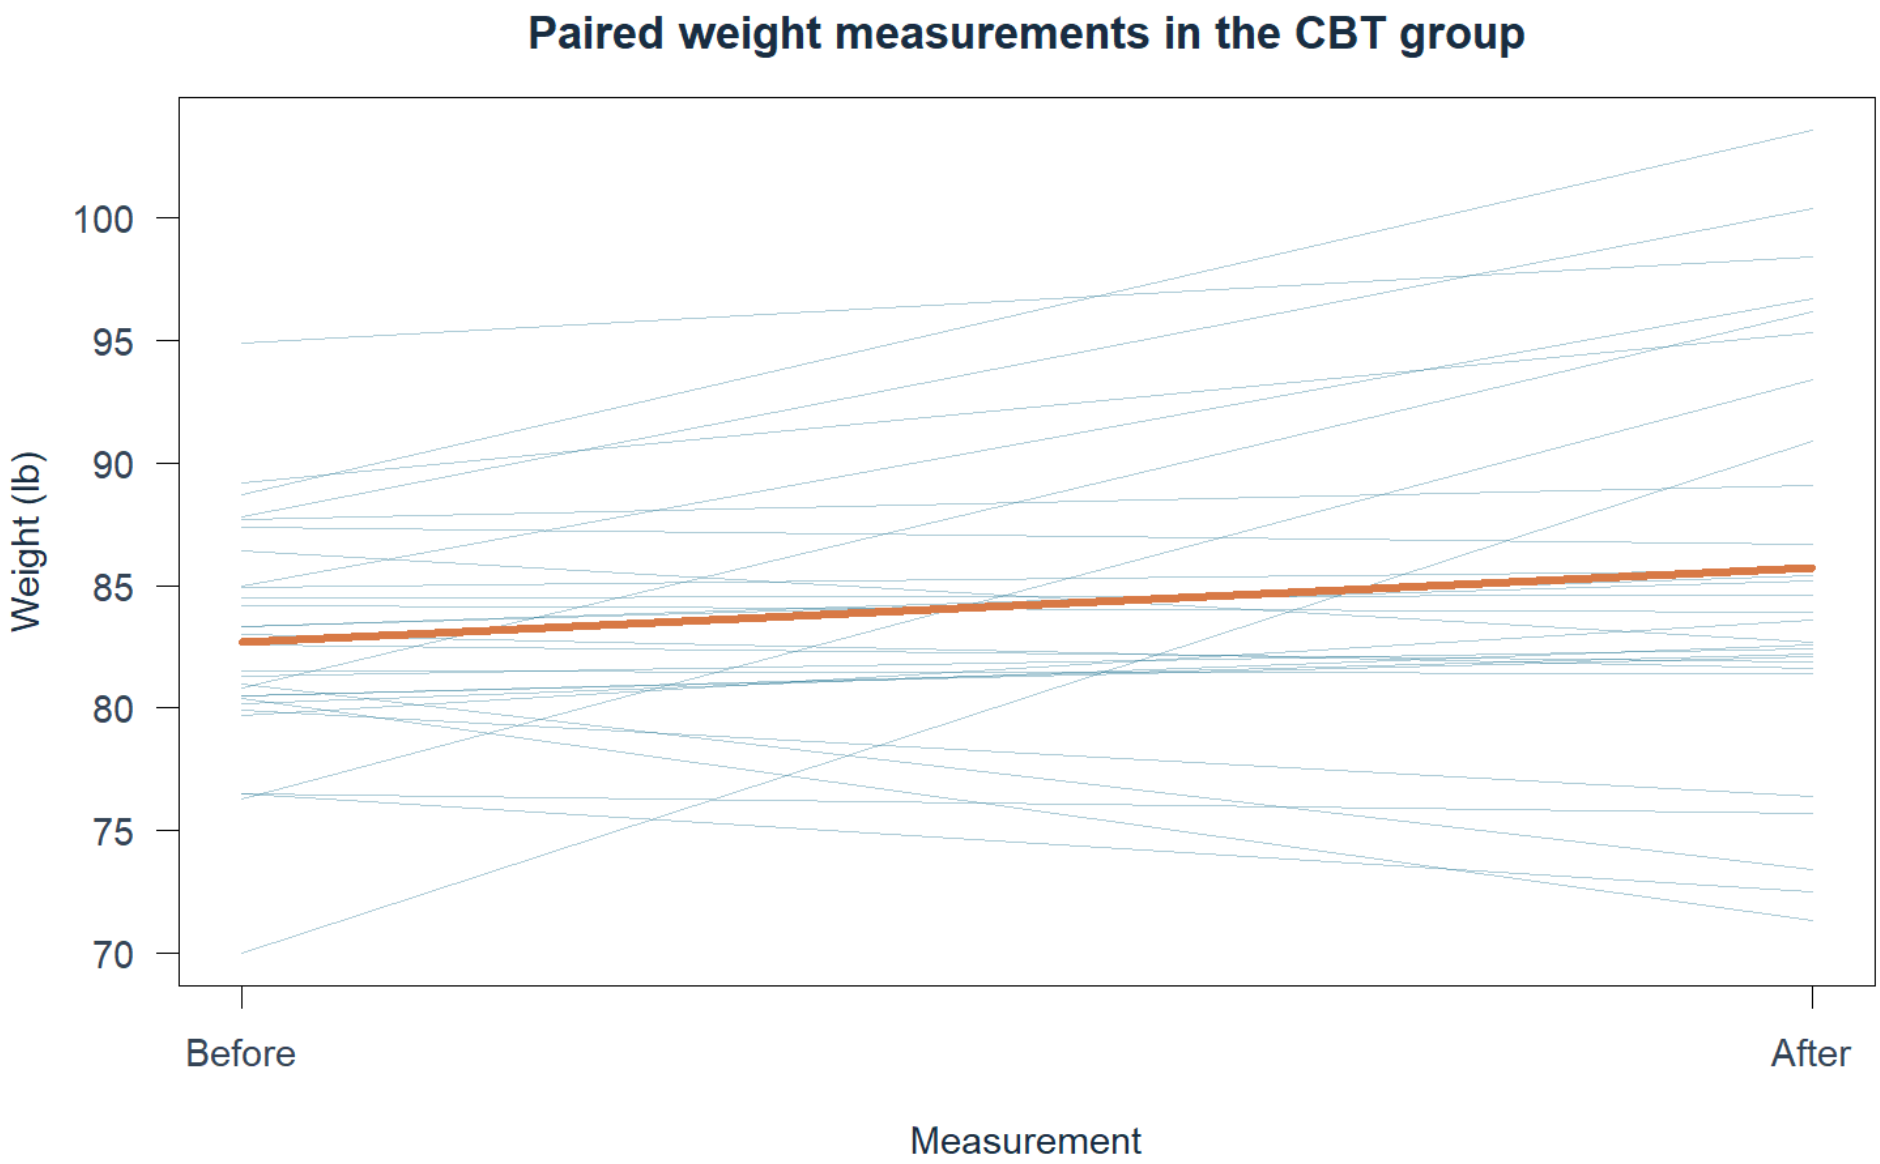

Lab09_Paired_TTest/output/paired_difference_qq.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

20 paired weights

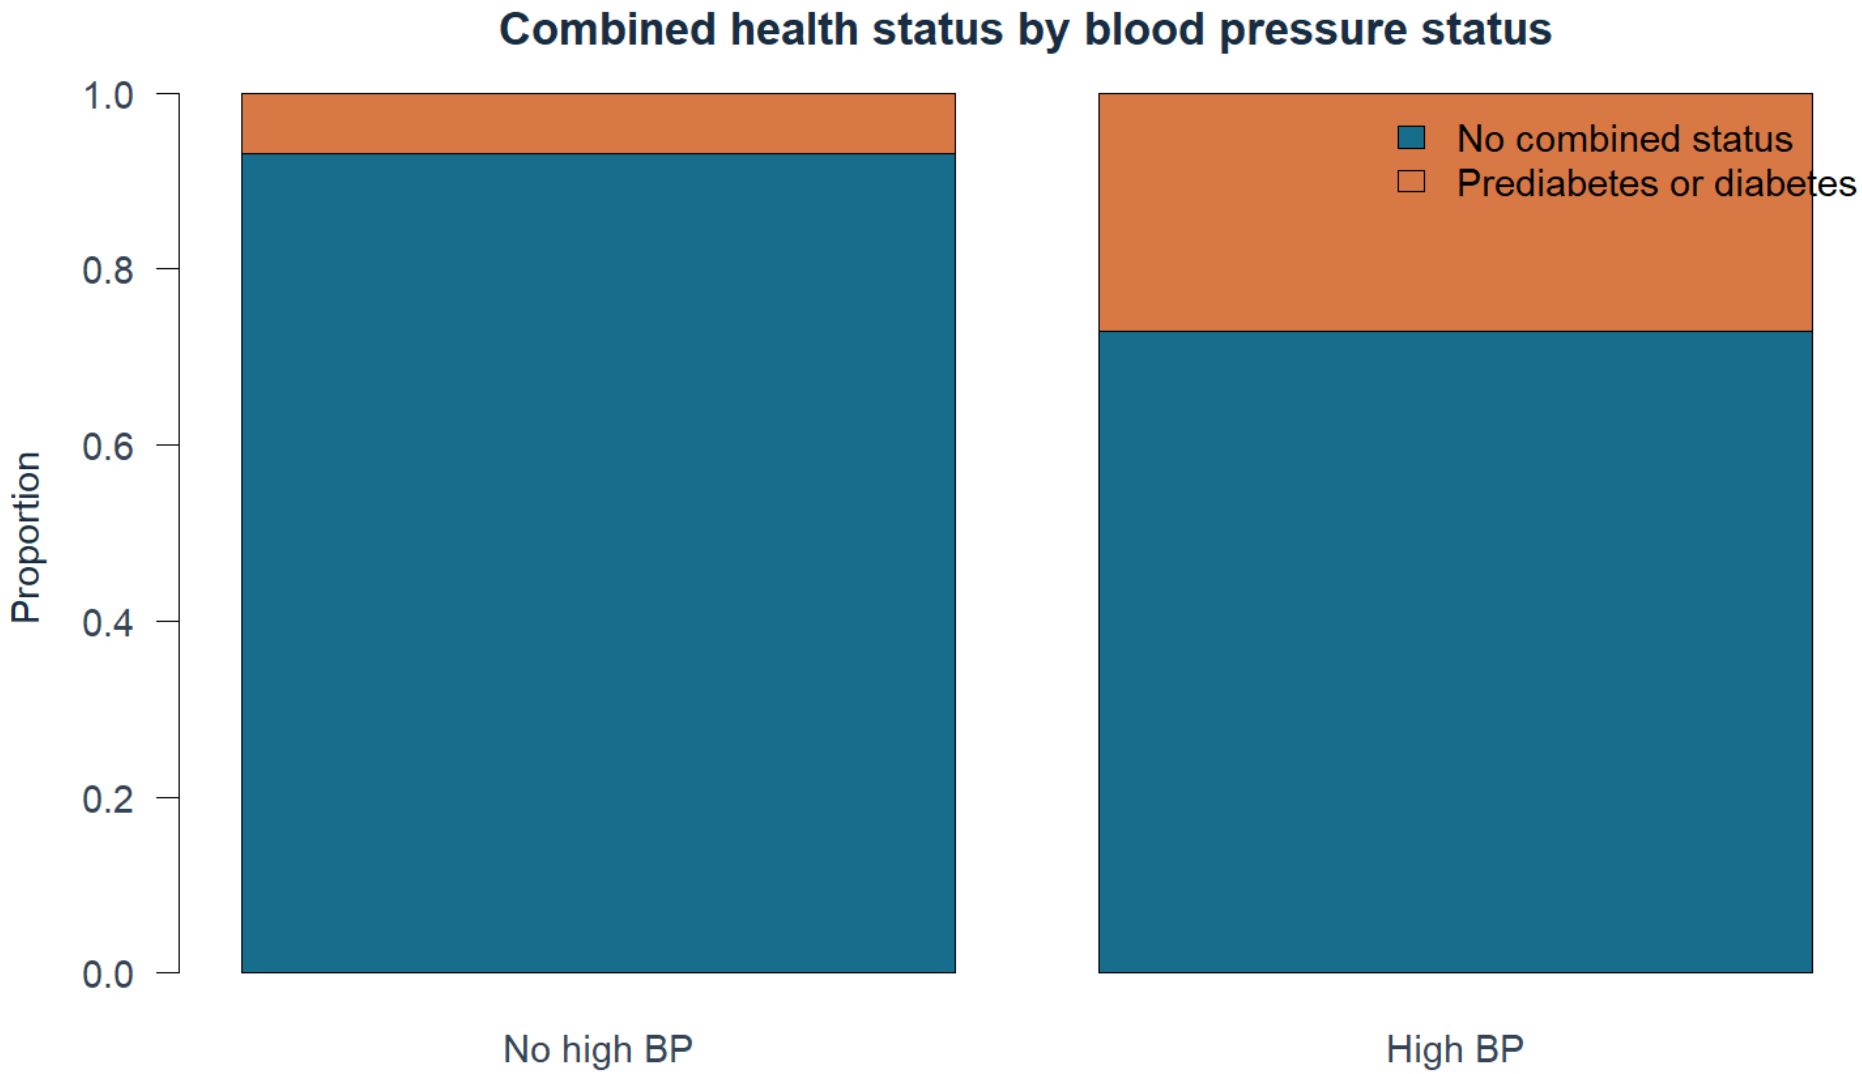

Lab09_Paired_TTest/output/paired_weights.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

21 stacked diabetes by highbp

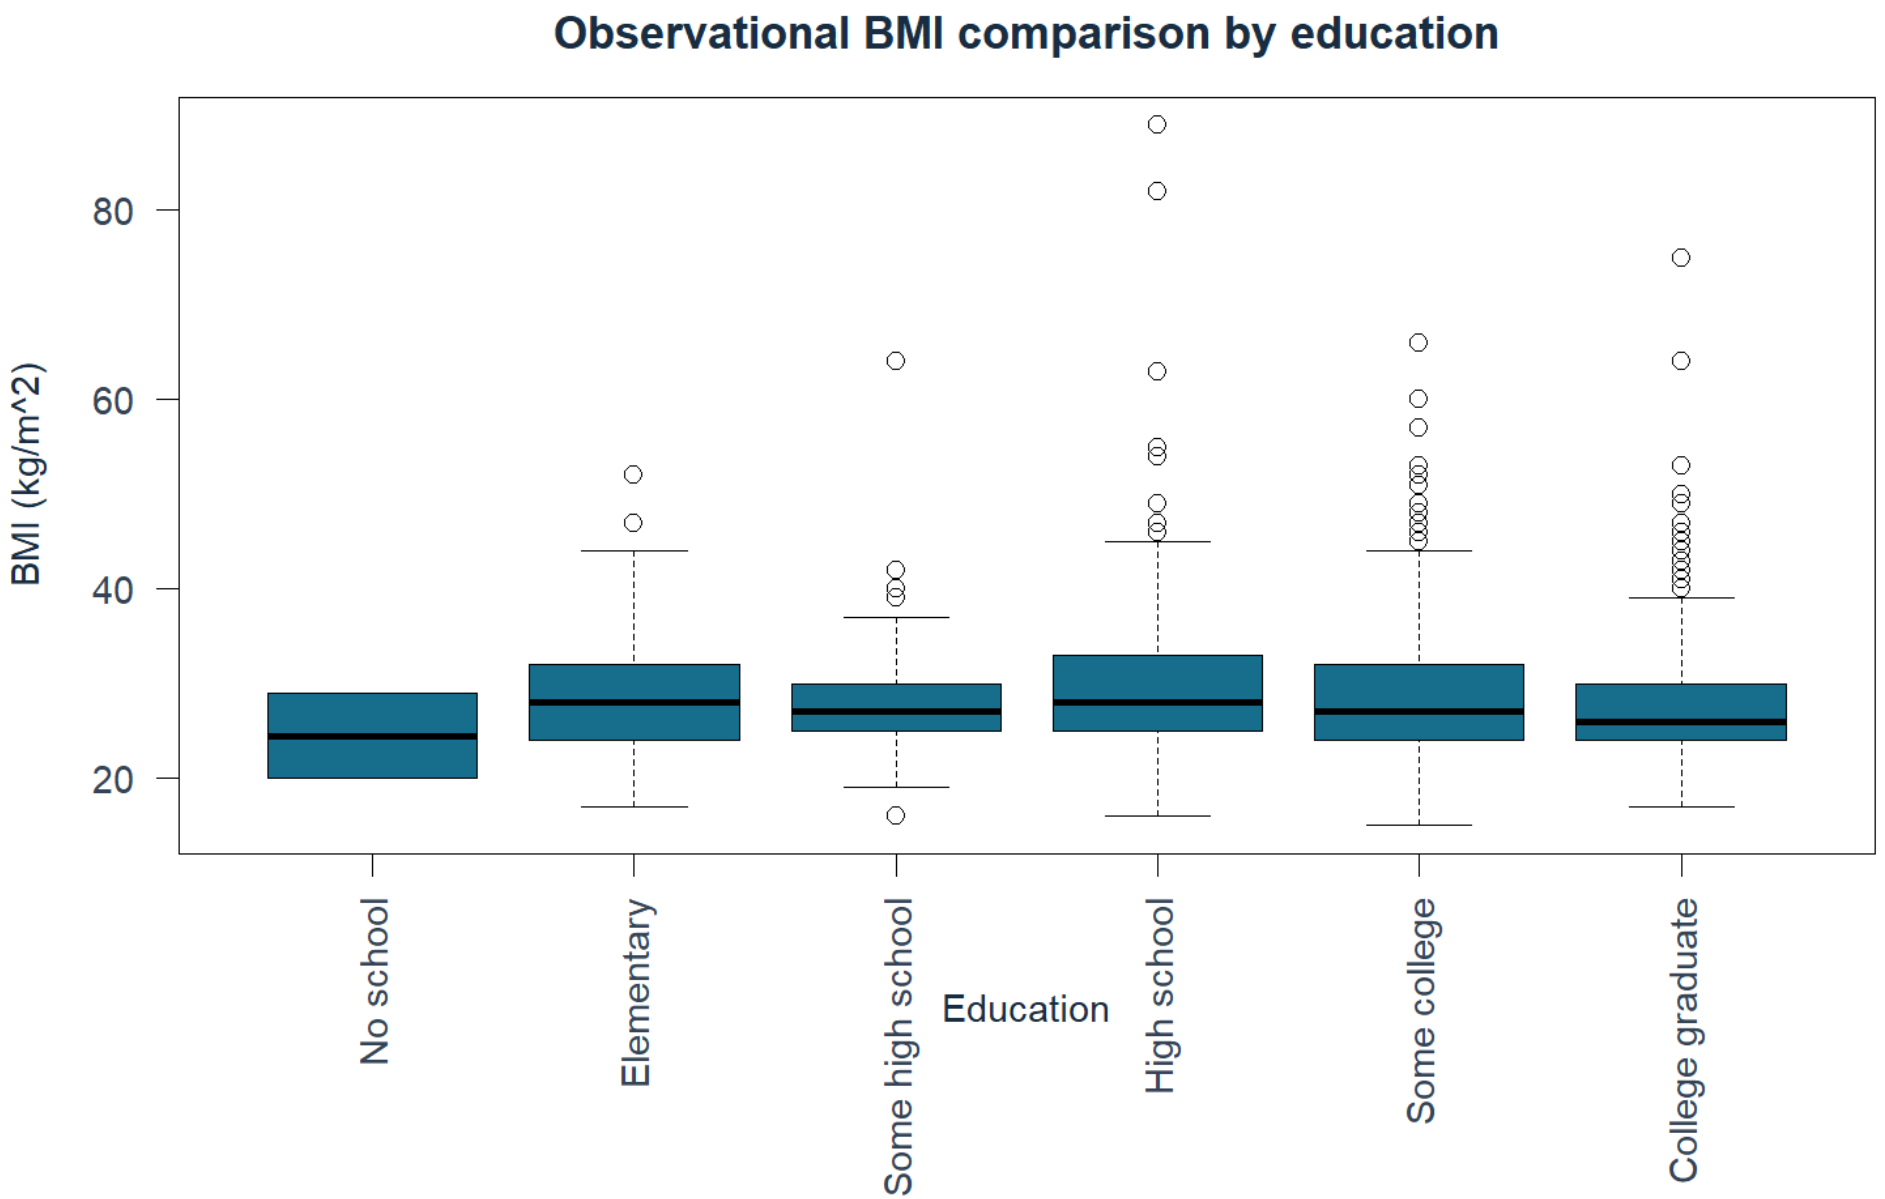

Lab10_ChiSquare_Tests/output/stacked_diabetes_by_highbp.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

22 box bmi by education

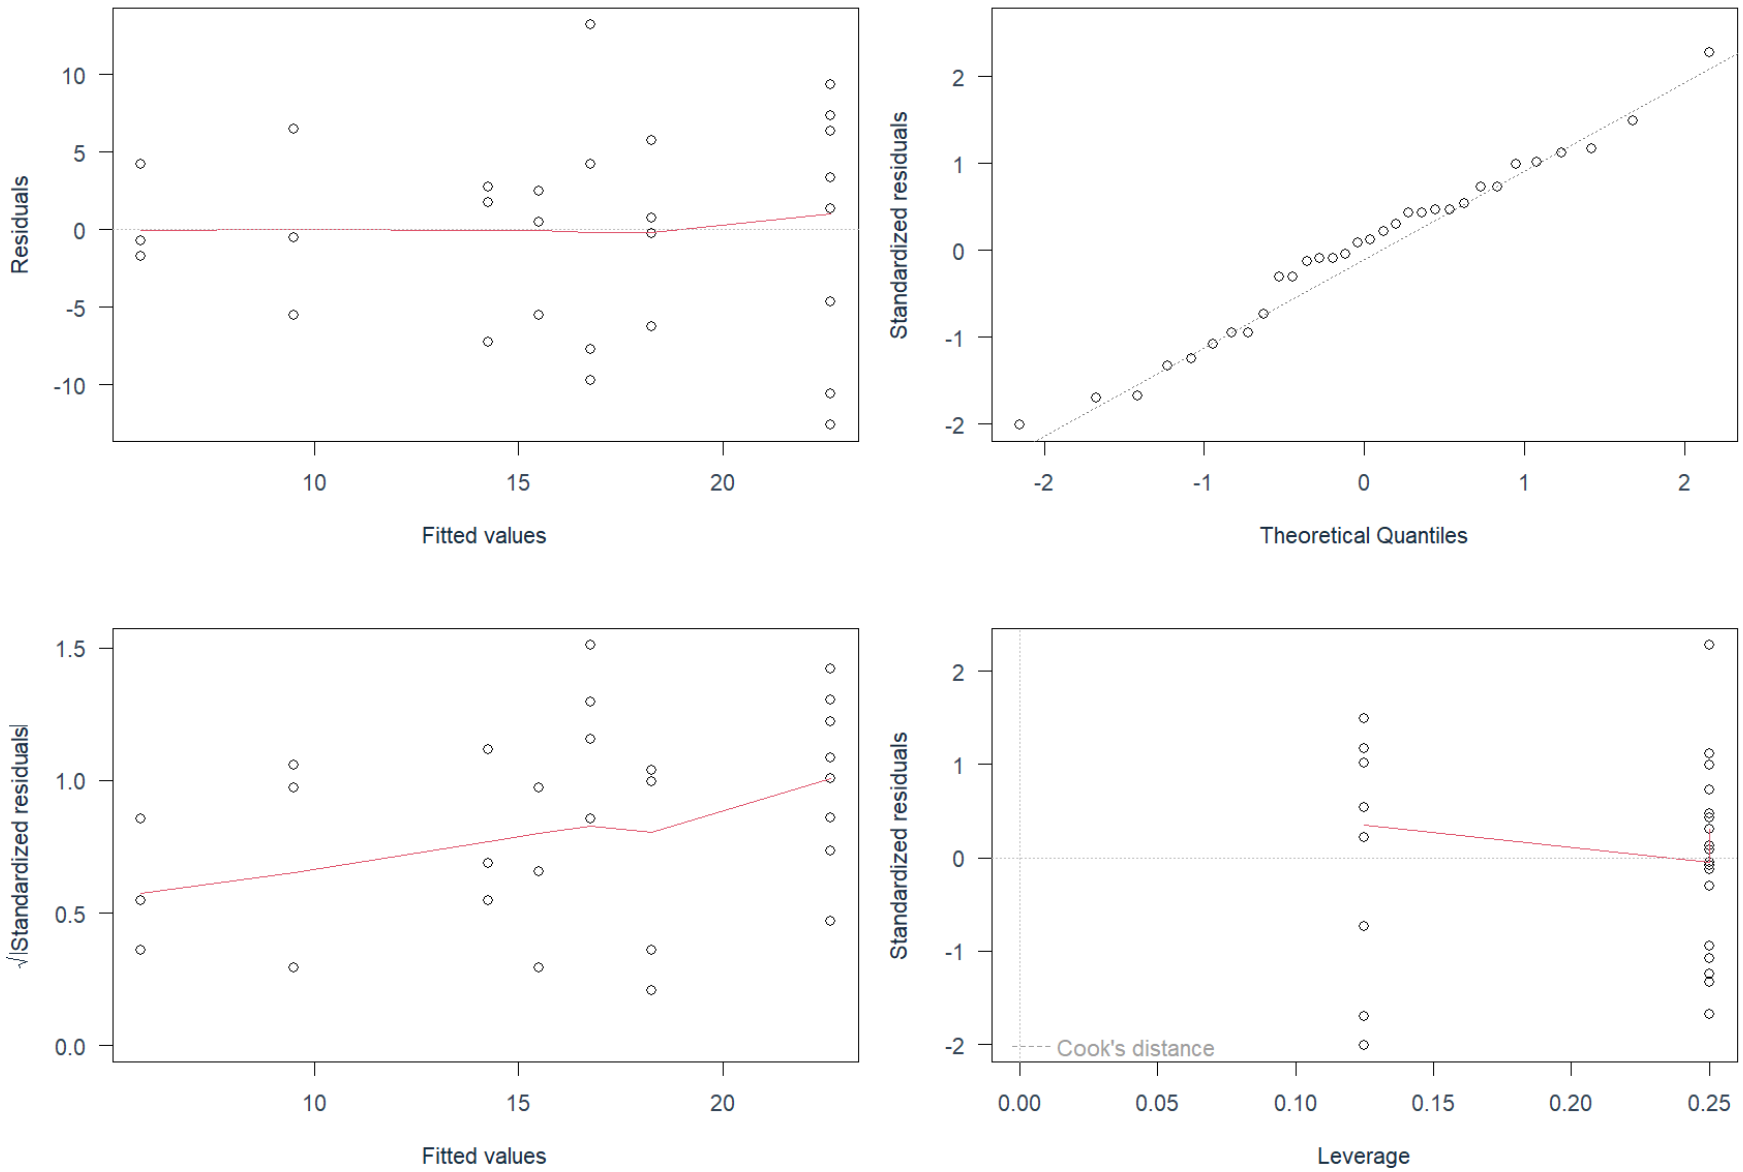

Lab11_ANOVA_CRD/output/box_bmi_by_education.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

23 crd diagnostics

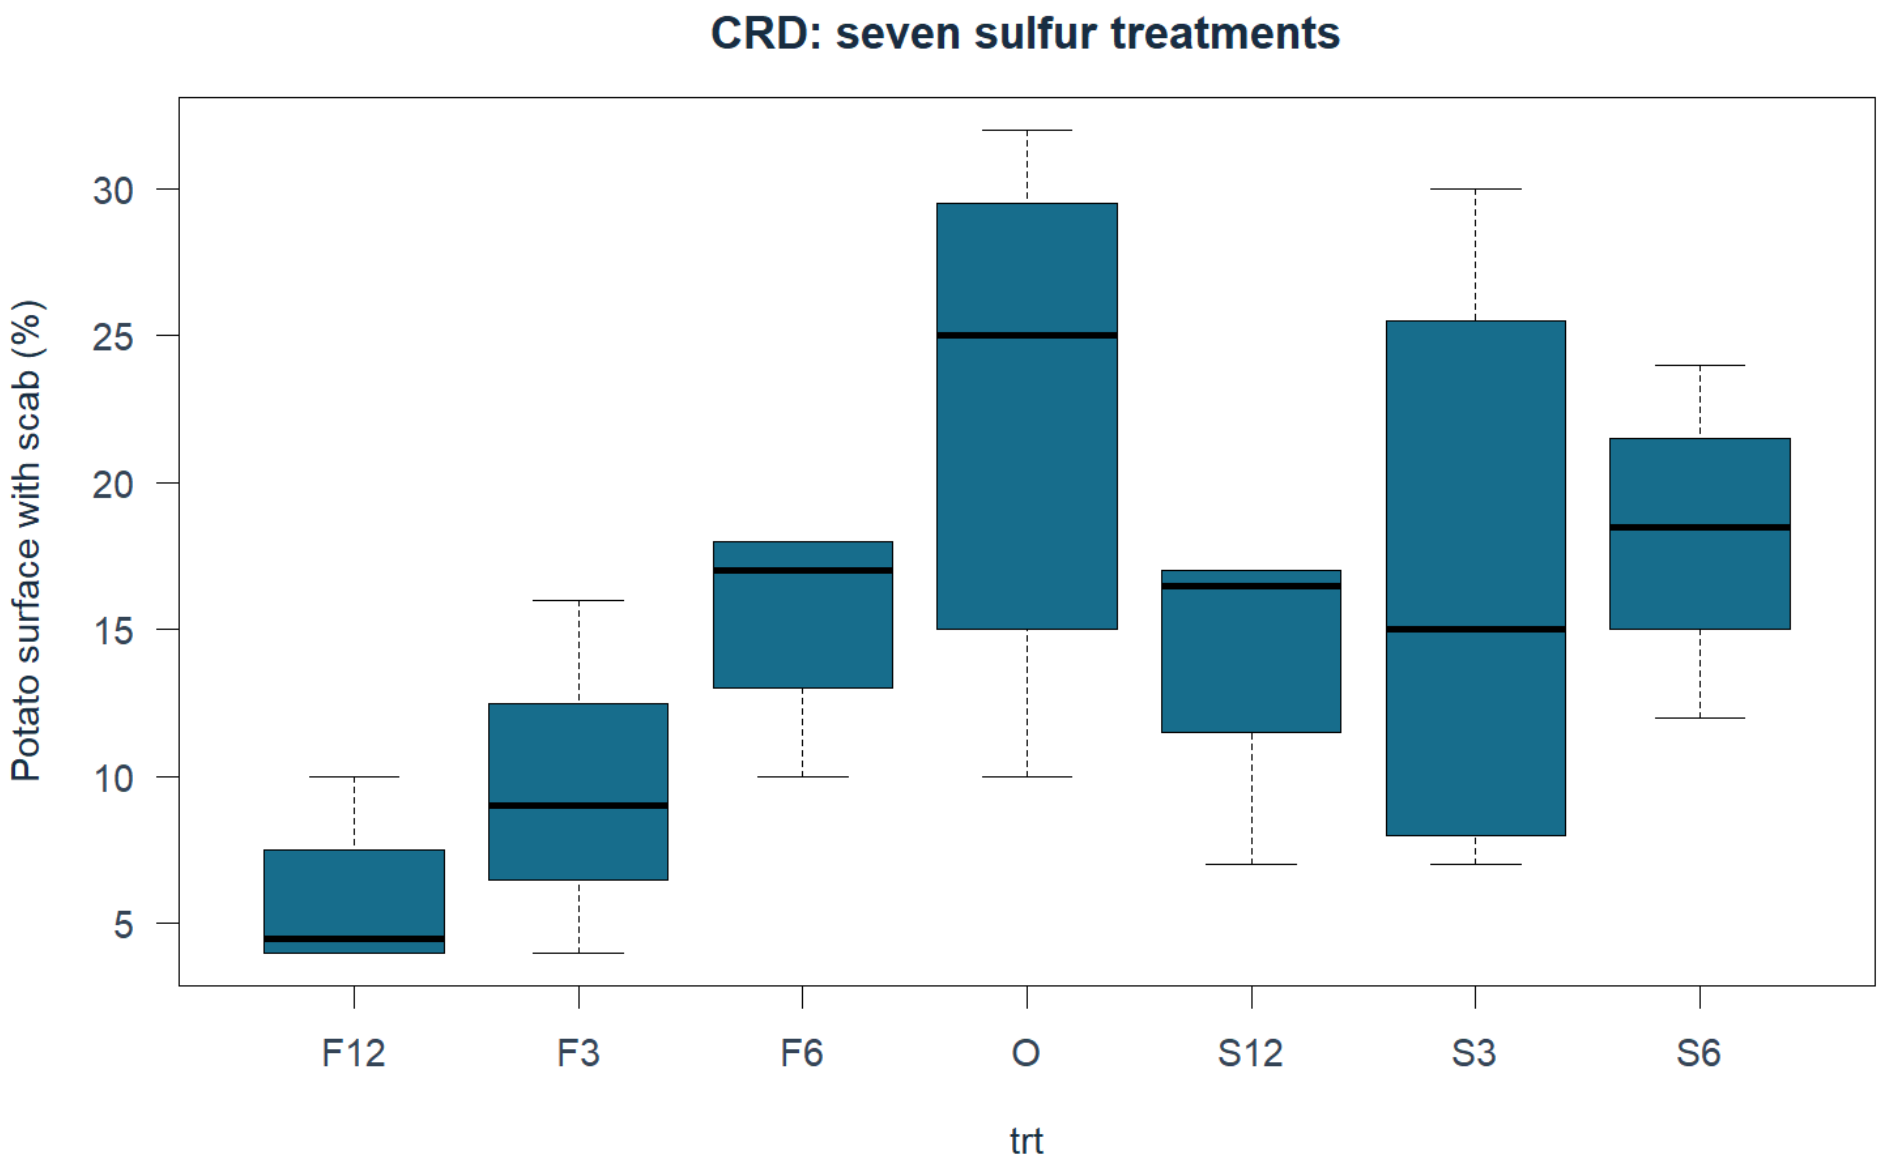

Lab11_ANOVA_CRD/output/crd_diagnostics.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

24 crd infection

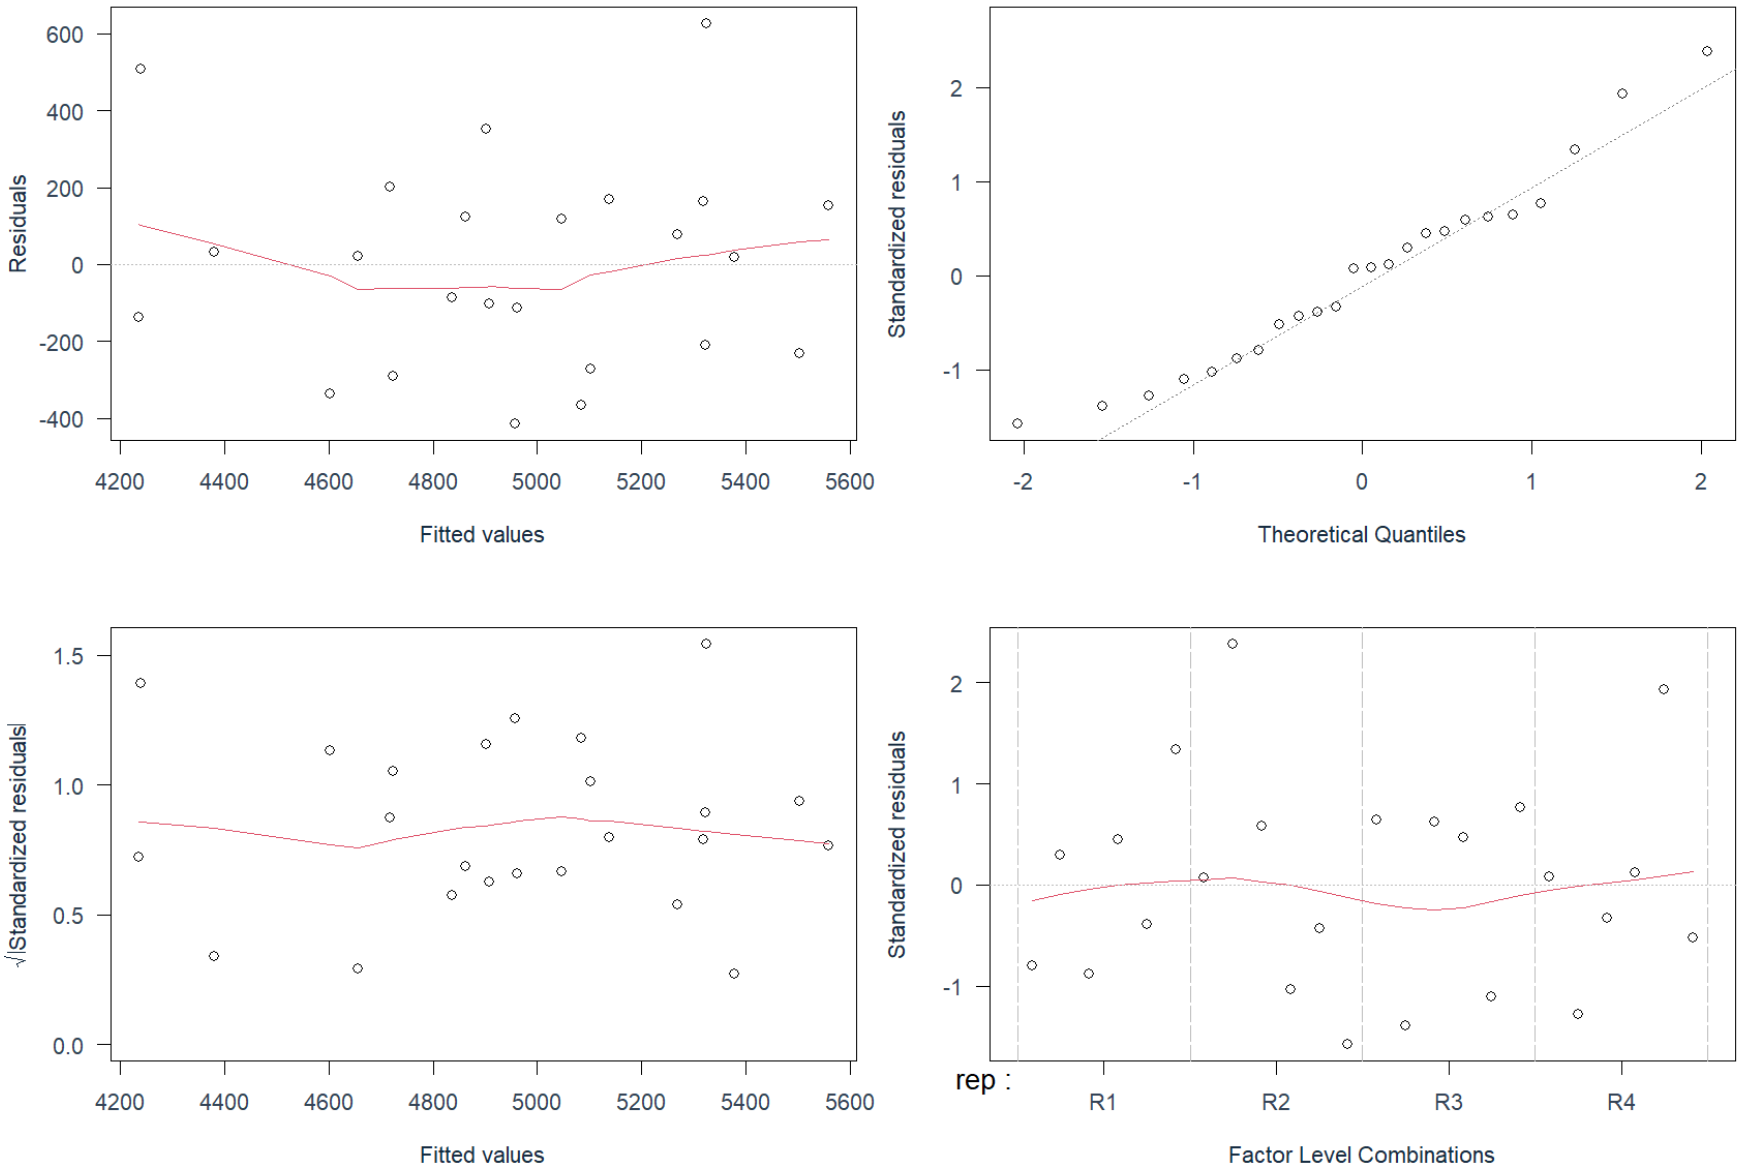

Lab11_ANOVA_CRD/output/crd_infection.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

25 rbd diagnostics

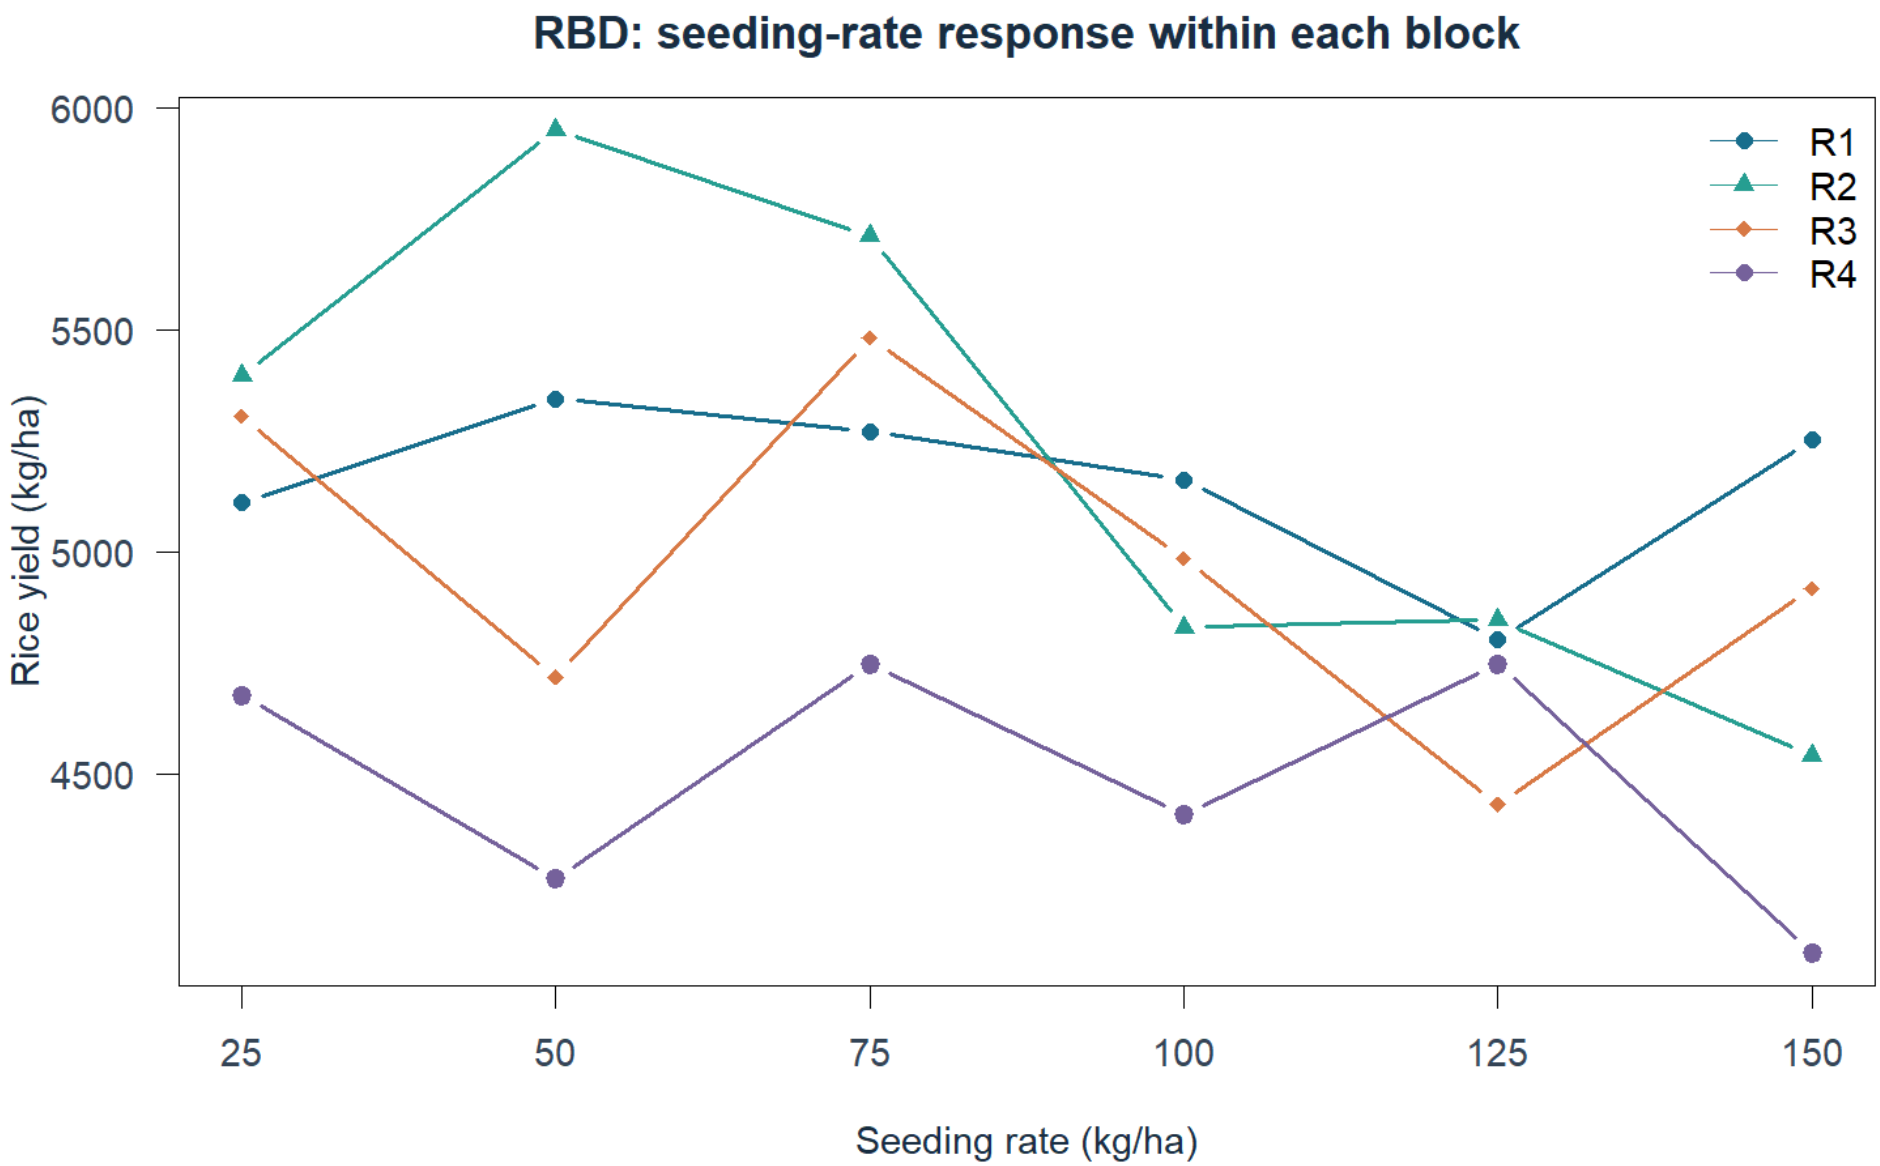

Lab12_ANOVA_RBD/output/rbd_diagnostics.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

26 rbd yield by rate

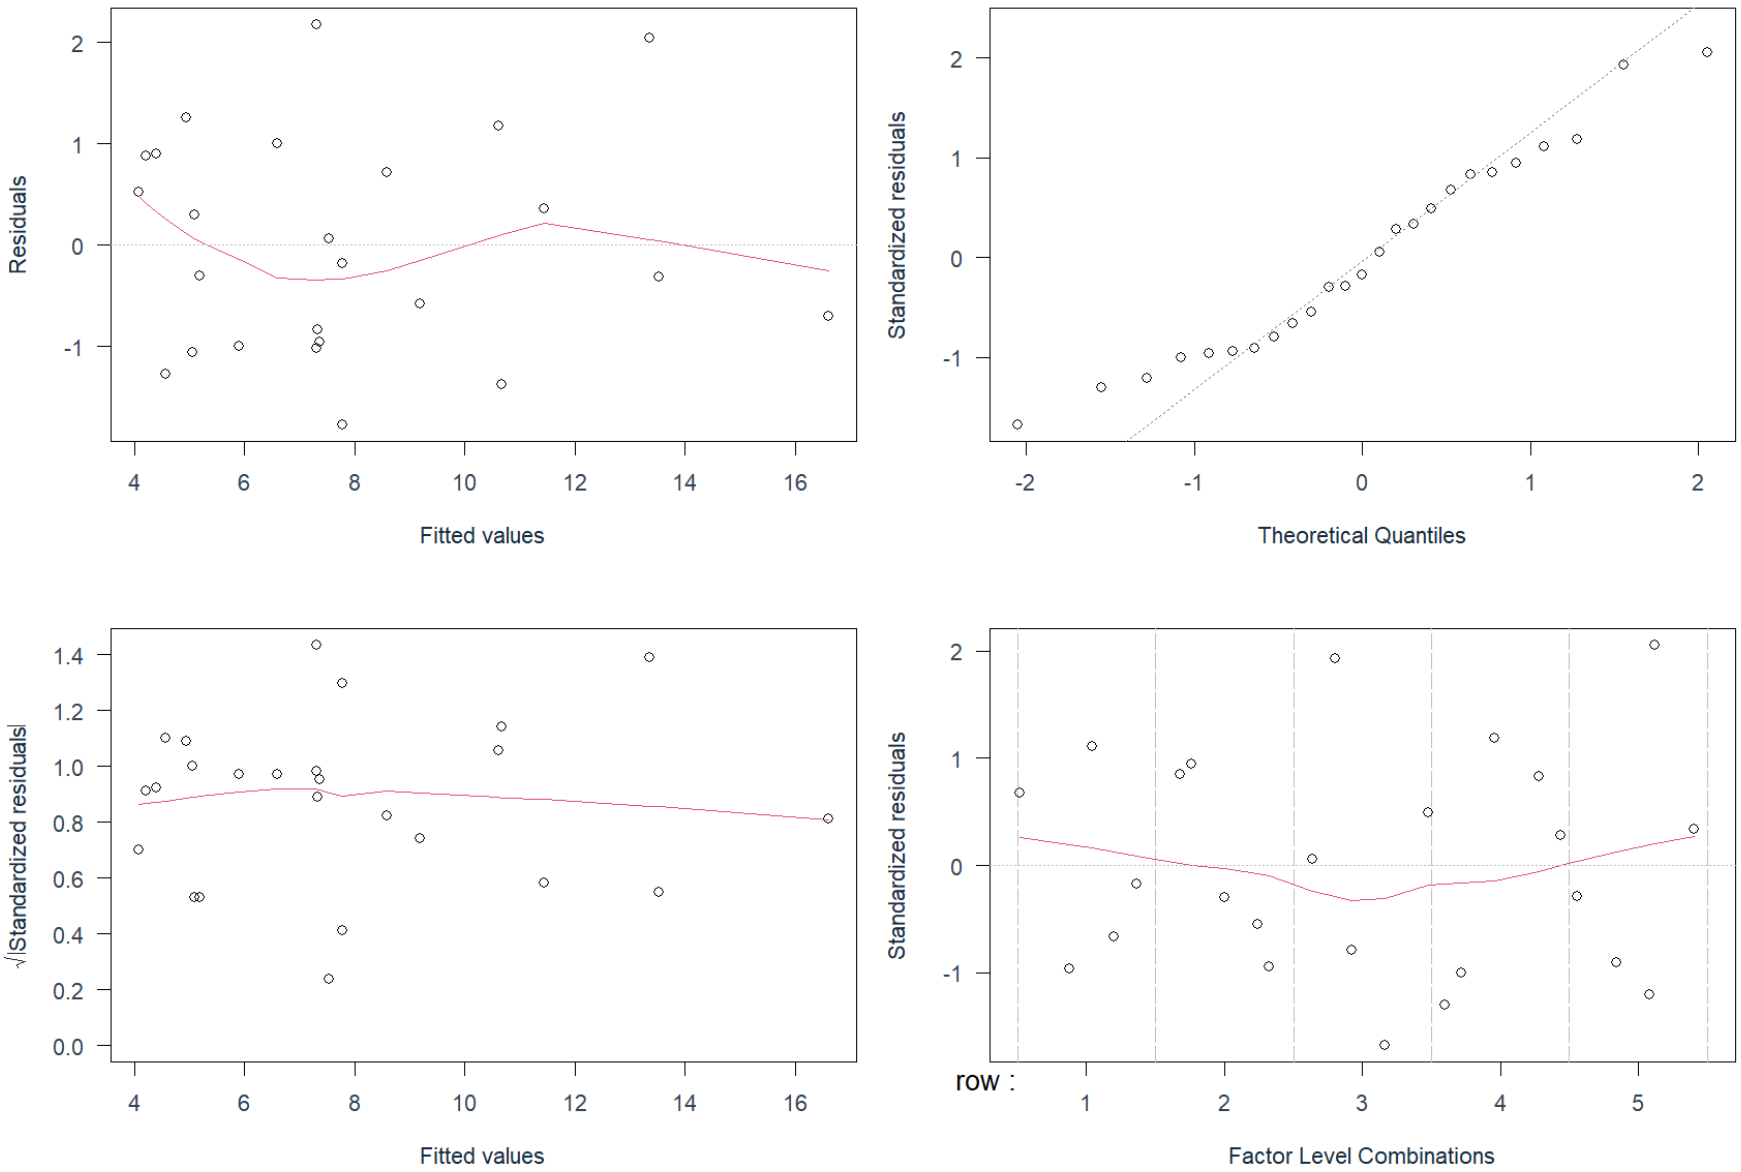

Lab12_ANOVA_RBD/output/rbd_yield_by_rate.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

27 latin diagnostics

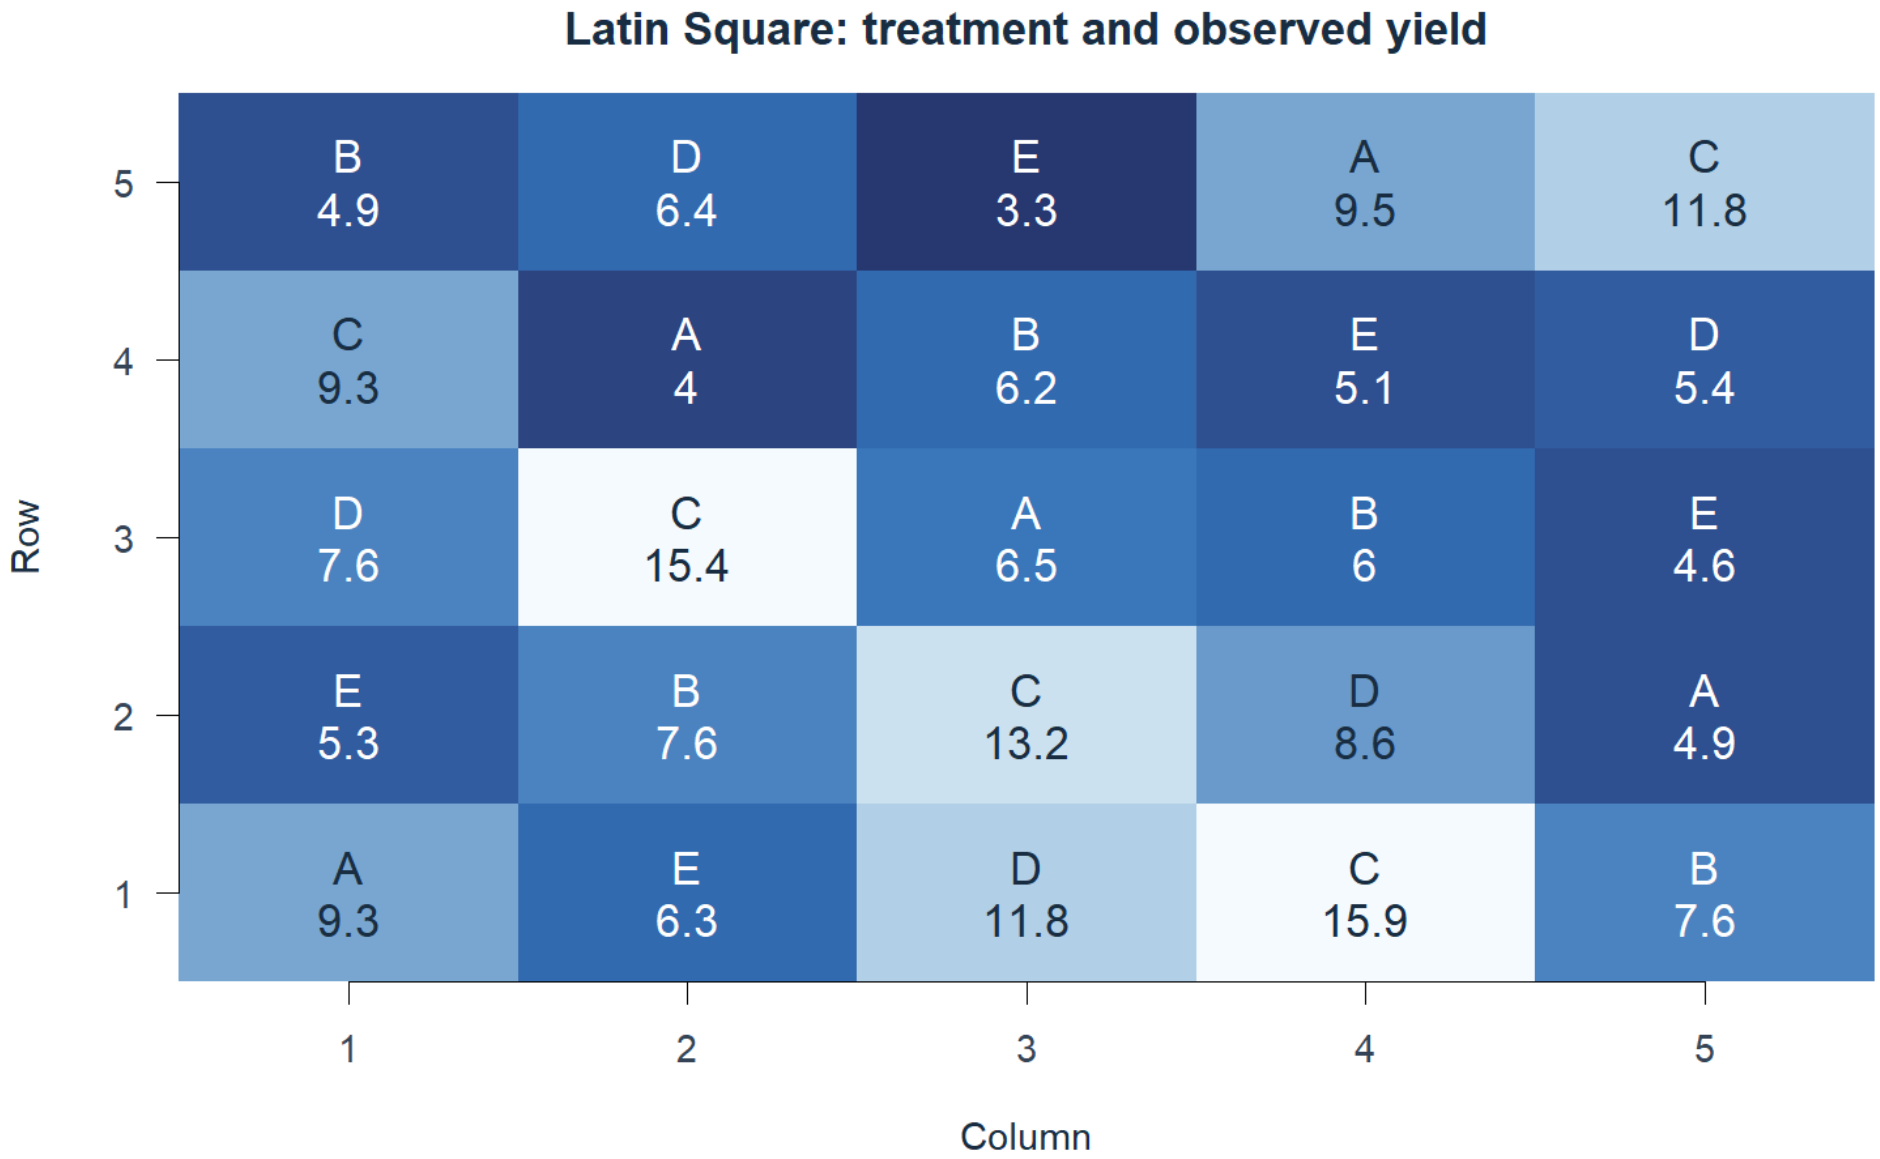

Lab13_Latin_Square/output/latin_diagnostics.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

28 latin square layout

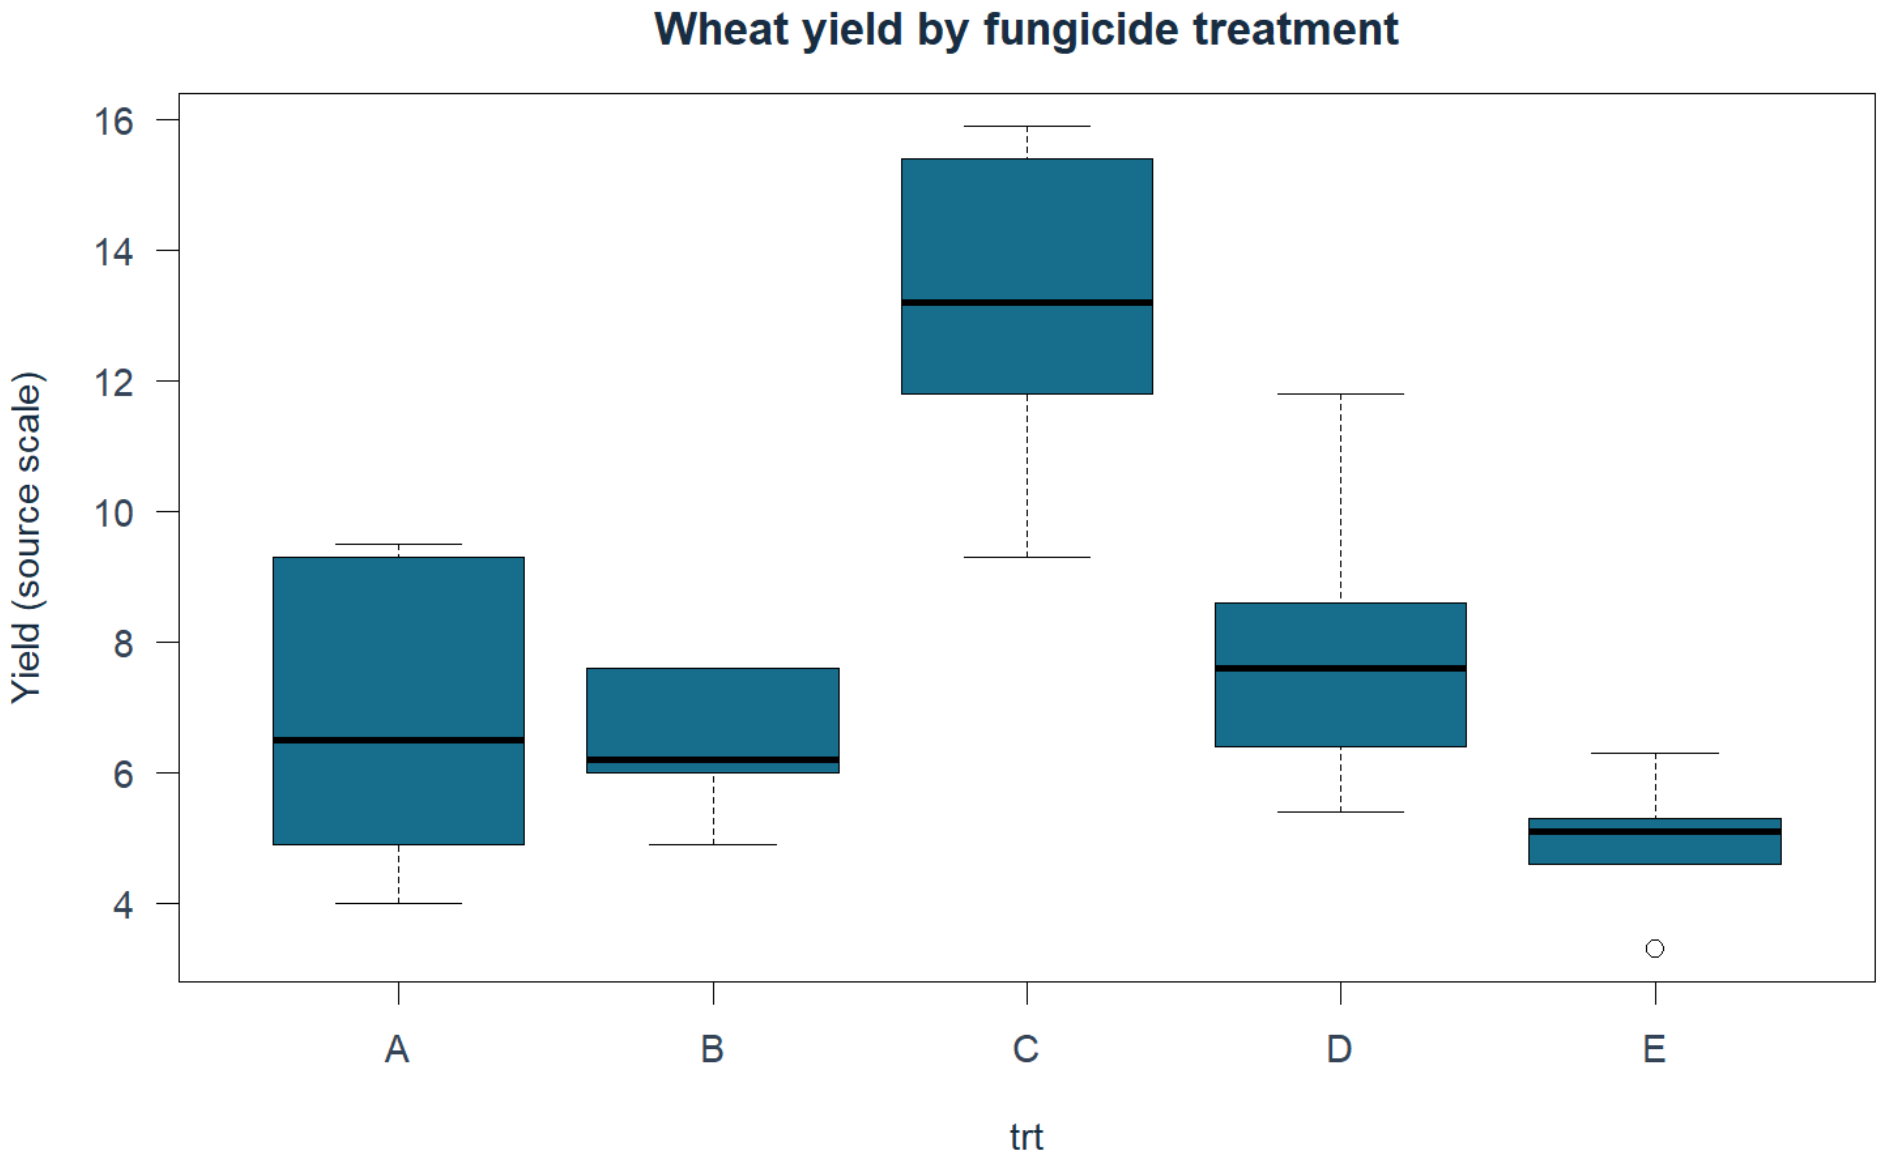

Lab13_Latin_Square/output/latin_square_layout.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.

29 latin yield by treatment

Lab13_Latin_Square/output/latin_yield_by_treatment.png

R output from the stated lab. Sample definitions and interpretation are in the mini project report.
